USD 475 BOARD POLICIES

PREFACE

The policies of Unified School District 475 are the results of a combined effort of the professional staff of the Kansas Association of School Boards, the board of education and the district's staff.

The staff of KASB has written the policy model and integrated into that model appropriate policies and procedures being used in the district at the time of the first draft. Upon completion of the first draft, a KASB staff member and selected district staff members edited the proposed policies resulting in preparation of a second draft to be presented to the board. When requested, KASB staff members consulted with the board and selected staff members to arrive at the final draft. This final draft was then adopted by the board.

Understanding the Policy System

Policies are principles adopted by the school board to chart a course of action. They tell WHAT is wanted and may include also WHY and HOW MUCH. They should be broad enough to provide the administrators with guidance in handling the day-to-day issues which arise; they should be narrow enough to give the administration clear guidance.

This philosophy was incorporated into thinking that produced the model and guided the board and the district's staff in developing the final, adopted policies.
There is one binder containing thirteen sections of policies. These sections are:

The system's ultimate success depends on using these policies daily to guide administrators and other staff, as a management tool to facilitate school board operations and actions.

The coding or "tracking" of terms is by letter rather than by number. Letter (alpha) encoding offers two major advantages over number coding. A letter system offers more flexibility. The code has available 26 separate letters to use compared to only ten digits. A letter system requires no decimal points. This tends to reduce the likelihood of errors in reproduction and filing.

**The Index**

The index is designed to help the user find the subject described in the appropriate policy.
When Using This Manual

To use this manual properly, the reader should look up the subject matter in the index and turn to the policy section first. The reader should check the table of contents found in the front of each policy section to determine if the desired subject is cross-referenced to any other policy. The reader should turn to the alpha code in the appropriate section and read the policy. After the reader has done this, cross-references should also be read.

State Law and Negotiated Contracts

These policies do not contain any statutory language, except where necessary, or negotiated contract language. They exist in other, separate documents, which should be consulted if needed. If the reader is in doubt about the subject being pursued, guidance should be sought from the superintendent or another administrative staff member.

Definitions

1. When the masculine pronoun is used throughout these policies, it is intended to refer to both feminine and masculine antecedents.

2. Wherever the word "superintendent" or "principal" occurs, the words "or designated representative" are assumed to be included.

**NO BINDING ACTION SHALL BE TAKEN DURING CLOSED OR EXECUTIVE SESSIONS**

When a motion is made to go into executive session, all blanks in the sample motion must be filled in.

The time the board will return to the open meeting and the room in which the meeting will resume will be specifically stated. If necessary, the executive session may be extended with another motion made after the board returns to open session.

Meal prices shall be determined by the board.

**Free and Reduced Price Meals**

Parents or guardians of students attending schools participating in federal school meal programs must be informed of the availability of reimbursable school meals and provided with information about eligibility and the process for applying for free or reduced price meals on or before the start of school each year.

**Unpaid Meal Charges**

The district's meal charging requirements are as follows.

A charge account for students paying full or reduced price for meals may be established with the district. Students at this high school level may charge no more than 10 days worth of meals to their account. Charging of a la carte, snack milk or extra items to any account will not be permitted.

At the Elementary and Middle School level, meals will not be denied.
Parents must notify the school to stop food service for their elementary or middle school student. At the High School level, if any student fails to keep his/her account solvent as required by the district, the student shall not be allowed to charge further meals until the negative account balance has been paid in full or arrangements have been made to pay off the balance. However, such students will be allowed to purchase a meal if the student pays for the meal when it is received.

At least one written warning shall be provided to a student and his/her parent or guardian prior to denying meals for exceeding the district’s charge limit. If payment of the negative balance is not received within 5 working days of the maximum charge limit being attained, the debt will be turned over to the superintendent or superintendent’s designee for collection in accordance with board policy DP. If the debt is not paid within 90 days of mailing the final notice of the negative account balance under policy DP, it shall be considered bad debt for the purposes of federal law concerning unpaid meal charges and may be sent to the Kansas Debt Offset program for collection.

Payments for school meals may be made at the school or district office or online at www.usd475.org. Students, parents, and guardians of students are encouraged to prepay meal costs.

The district will provide a copy of this unpaid meal charges policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this policy will also be communicated to all district staff responsible for enforcing any aspect of the policy. Records of how and when it is communicated to households and staff will be retained.

Data collected in the district may be provided to authorized state or federal government education agencies upon proper request, subject to the approval of the board or provisions of law.

SECTIONS
The Board of Education embraces energy conservation and believes it to be our responsibility to ensure that every reasonable effort is made to conserve energy and natural resources while exercising sound financial management.

We recognize the importance of adopting an energy conservation policy to govern this program. We also affirm the implementation of this policy will be the joint responsibility of the board, administration, faculty, staff, students, support personnel, and Cenergistic. Success is based on cooperation amid all groups.

To ensure the overall success of our behavior-based energy conservation program, the following areas will be emphasized:

- A designated campus Administrator will be accountable for energy conservation on his/her campus with Energy Specialist teams conducting energy audits and providing timely feedback.
- All personnel at each campus are expected to make a positive contribution to maximize energy conservation and produce real energy savings.
- Cenergistic will implement its energy conservation program primarily through an energy management team led by the Energy Specialist(s) in accordance with “Energy Guidelines” that will be adopted by administration and will define the “rules of engagement” for our energy program.
- Accurate records of energy consumption and cost will be maintained by the Energy Specialist for each campus to provide verifiable performance results on the goals and progress of the energy conservation program.
Further, to promote a safe, healthy learning environment and to complement the energy conservation program, each campus shall review and adhere to the energy conservation and building management guidelines for its facilities and systems, including HVAC, building envelope, and moisture management.

Whereas the Board is responsible for overseeing the operations and fiscal accountability of each institution under its governance,

Whereas the Board embraces energy conservation and desire for the District to become a nationwide institutional leader in energy conservation as part of our social responsibility to respect our natural resources,

Whereas the Board has engaged Cenergistic to use its expertise to develop and implement a comprehensive, behavior-based energy conservation program across the District,

Therefore, the Board directs the Superintendent and his/her agents to develop and implement short and long range strategies to maximize energy conservation.

SECTIONS
Roles of Districts, Schools, Parents/Guardians, and Students

The roles of District, families, and students regarding travel to and from school are as follows:

a. District/Schools. The role of District and individual schools is to encourage safe travel to and from school, and to encourage active transportation. Notwithstanding certain exceptions, District and individual schools assume no liability for injuries or other damages, including property damage, that may occur while a student is in transit to and from school.

b. Parents and Guardians. The role of parents and guardians is to make informed decisions about which mode of transportation best suits their student in light of (i) the student's personality, age, maturity, physical and cognitive development, and decision-making abilities, and (ii) the street, traffic, crime, and other relevant conditions likely to be encountered by the student when traveling to and from school. Parents and guardians are legally responsible and otherwise accountable for their student's safety and well-being when the student is traveling to and from school.

c. Students. The role of students is to be safe and responsible while traveling to and from school, following state and local law and the rules established by their families, and obeying school rules while traveling on school campus. Students should act as good role models for their peers by observing traffic and safety rules, caring for property, and being courteous to others.

District Task Force

District shall establish a Safe Routes to School District Task Force ("Task Force") to develop and implement strategies grounded in the "Five E's" (education, encouragement, engineering, enforcement, and evaluation) that address Safe Routes to School planning, funding, and policies. Specifically, the Task Force shall undertake the following:
EH Safe Routes to Schools

* Evaluate the current policies and resources that support or inhibit safe and convenient transportation to or from school;

  * Ensure that resources for the Safe Routes to School program are distributed equitably across District schools and that any prioritization takes into account, among other things, personal and traffic safety concerns, crash data, infrastructure deficiencies, equity issues such as free/reduced lunch status, and existing and potential patterns of students walking and bicycling to school;

  * Promote the Safe Routes to School program throughout District;

  * Identify and pursue available funding (federal/state grants and other sources) to support Safe Routes to School; and

  * Evaluate the efficacy of District's Safe Routes to School policies, programs and activities.

Traffic Safety Education

District encourages individual schools to work with law enforcement to provide traffic safety education and trainings on active transportation skills for all students and teachers. District recommends that pedestrian skills and safety workshops occur in kindergarten and bicycle skills and safety workshops occur in fourth grade.

Walk to School Day and Other Promotional Activities

District supports events that encourage students to engage in active transportation to and from school and that promote active, healthy lifestyles for the community at large. Events may include Walk to School Days, Bike to School Days and School Walk-a-Thons.

Enforcement
improve implementation; and (iii) what amendments are needed to improve the Policy's success. District shall prepare a report detailing its findings and proposals to enact any necessary amendments. The report shall be made available to the public and district task force.

Incorporation into Student and Parent Handbooks

All schools will have a link to the district’s Safe Routes to School Policy from their Student and Parent Handbooks.

Incorporation into School Wellness Policy

This Safe Routes to School Policy is hereby incorporated into District's School Wellness Policy. District shall ensure that the School Wellness Policy reflects this addition.

Limiting Restrictions on Active Transportation

District acknowledges that the choice of which mode of transportation to use when traveling to and from school rests with students and/or their families, rather than with District or individual schools.

Student Arrival and Dismissal

District recognizes that ensuring student safety is especially critical during student arrival and dismissal times due to (i) increased automobile and bus traffic volume, and (ii) the potential for conflicts between different modes of transportation, which creates particular danger for those engaging in active transportation. Accordingly, District schools should strive to improve the safety of all modes of transportation during these time periods by separating active transportation from other forms of transportation as much as possible. Potential options may include, but are not limited to: establishing remote drop-off locations, car-free zones, single lanes for drop-offs and pick-ups, and early dismissal for active transporters.
Bicycles, Scooters, and Skateboards on Campus

District, in partnership with individual schools, shall designate active transportation routes to and from school grounds that provide for convenient travel to exterior access points (i.e. crosswalks, bike lanes, etc.). Although District cannot guarantee that all such routes will be completely safe at all times, District shall consider relevant factors, such as traffic patterns and dismissal times, to designate routes that are most likely to be safe.

Busing

District acknowledges that busing may play a significant role in supporting student learning and meeting District's educational and equity objectives.

School Design

District acknowledges that school design can have a significant impact on both the safety and number of students that engage in active transportation to and from school. Accordingly, when constructing a new school or renovating an existing school, District shall:

* Accommodate the safety and convenience of students, staff, and visitors, including those with disabilities, in arriving and departing by different modes of transportation, including but not limited to walking, bicycling, public transportation, school buses, and private automobiles; and

* Minimize conflicts between those engaging in active transportation, school buses, and private automobiles by providing, at a minimum, safe crossings of parking lots and other areas of potential conflict.
School Travel Plan: Moving Beyond the Bus

District encourages that each school adopt a School Travel Plan that addresses all modes of active transportation and related safety, access, and parking issues. The plans shall also include goals, strategies, and objectives for increasing active transportation among students and staff, including those with disabilities. At a minimum, the School Travel Plan shall contain a map identifying the school, streets surrounding the school, existing traffic controls, established pedestrian and bicycle routes, pedestrian crossings, school and municipal bus routes and bus stops, and any other infrastructure or plans that facilitate routes which separate active commuters from motor vehicles, with the goal of minimizing risk of injury and maximizing the safety and convenience of active transportation.

Requests to use district buildings and/or facilities for displaying permanent memorials, hosting funeral or memorial services, or honoring a person with its name shall be considered in accordance with the following provisions.

Memorials

As places designed primarily to support learning, school sites should not serve as the main venue for permanent memorials for students or staff. Permanent memorials for deceased students or staff shall be limited in form to items that improve or enhance the school environment and perpetual awards or scholarships for district students.

Any permanent memorials in existence before the adoption of this policy can only be removed by board action.

Funerals

Use of school facilities for funerals is discouraged. If requests are made to hold funeral or memorial services at district facilities, such requests will only be considered if any services are scheduled after school has dismissed for the day or on weekends.

Requests for funeral and memorial services and shall be made to the superintendent and the board must approve all requests.

Naming of Facilities

The board will consider requests from school and community groups to name an athletic or other school activity facility, building, or a portion thereof for a person provided the proposed name has special significance and/or the person has made an outstanding contribution to the school or the school system.
and has been deceased for at least 10 years. The board shall consider naming requests after they are recommended by the superintendent.

The official name selected for a facility or a portion thereof is a vital factor in the public image of the school district. The honor and integrity of the name selected reflects upon the facility and the district. Any proposed name that is incompatible with the best interests of the district—its educational mission, values or public image—may be rejected by the board.

Committee Procedures for Selecting Facility Names

Facilities under the directions of the board will be named by the following procedures: The board will appoint a committee whose function will be to review potential names and to make recommendations to the board. The committee will have representatives from the board, community, military, administration, and teaching staff. The public and members of the staff will be invited to suggest names to the committee along with documentation to support the nomination.

The committee shall consider names of persons who have achieved national, regional, state, or local prominence in education; arts and sciences; the humanities; government, political or military leadership or heroism; the judiciary; civic leadership; humanitarian or philanthropic causes; names related to the history, general location, or features of the area; or the educational terms, practices, or concepts of the facility or district.

Facilities will not be named for persons currently employed by the district or active in its operation or who currently hold any public office. The name of a past staff or board member shall not be considered unless at least five years has passed since the end of the employment or service.
The committee shall recommend three names to the board. Such recommendation shall be in writing with reasons for its recommendations, including preference. The board is ultimately responsible for naming facilities and may reject any or all recommendations. No facility or portion thereof shall be named without official action from the board.

Naming to Acknowledge Financial Contributions

Financial contributions shall not give rise to any right, belief or expectation that a facility or a portion thereof will be named for the person(s), organization, association or business making the contribution. Portions of school facilities may, at the discretion of the board, be named for a person(s), organization or business that has made significant financial contributions for the construction, maintenance or furnishing of the facility, with the board considering the following criteria:

1) “Significant contributions” shall be defined as those in excess of $250,000.
2) Preference will be given to the name of a person or family.
3) The name of a business or organization may be used, but logos, trade names, brand names, labels or trademarks are not allowed on school facilities.
4) Any signage must meet standards established by the superintendent and must have approval from the board.

Any incident of discrimination in any form shall promptly be reported to an employee’s immediate supervisor, the building principal or the district compliance coordinator for investigation and corrective action by the building or district compliance officer. Any employee who engages in discriminatory conduct shall be subject to disciplinary action, up to and including termination.

Discrimination against any individual on the basis of race, color, national origin, sex, disability, age, or religion in the admission or access to, or treatment or employment in the district’s programs and activities is prohibited.

The Executive Director of Personnel Services, 123 N. Eisenhower, Junction City, Kansas 66441, Telephone 785 717-4000, has been designated as the district compliance coordinator and designated to handle inquiries regarding this policy and/or nondiscrimination requirements contained in Title VI of the Civil Rights Act of 1964, Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and The Americans with Disabilities Act of 1990.

SECTIONS
GAAC Sexual Harassment (See GAF and JGEC)

The board of education is committed to providing a positive and productive working and learning environment, free from discrimination on the basis of sex, including sexual harassment. Sexual harassment will not be tolerated in the school district. Sexual harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to sexually harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student or another employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy. Violation of this policy by any employee shall result in disciplinary action, up to and including termination.

Sexual harassment shall include, but not be limited to, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment; (2) submission to
GAAC Sexual Harassment (See GAF and JGEC)

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse; pressure for sexual activity; repeated remarks to a person, with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning an employee’s job status.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of sexual harassment will be promptly investigated and resolved.

Employees who believe they have been subjected to sexual harassment should discuss the problem with their immediate supervisor. If an employee’s immediate supervisor is the alleged harasser, the employee should discuss the problem with the building principal or the district compliance coordinator. Employees who do not believe the matter is appropriately resolved through this meeting may file a formal complaint under the district’s discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its
GAAC Sexual Harassment (See GAF and JGEC)

severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the building principal. Employees who fail to report complaints or incidents of sexual harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

Initiation of a complaint of sexual harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation proceeding, or hearing involving a sexual harassment complaint is prohibited.

Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment.

The Executive Director of Personnel Services, 123 N. Eisenhower, Junction City, Kansas 66441, Telephone 785 717-4000, has been designated as the district compliance coordinator and designated to handle inquiries regarding this policy and/or receive sexual harassment complaints. Any such incidents should be
GAAC Sexual Harassment (See GAF and JGEC) GAAC-4

reported to the District Compliance Coordinator. Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district’s obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility, shall be published in employee handbooks and on the district's website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile working environment;

- Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with an individual’s work performance or employment opportunities.

Racial or disability harassment may result from verbal or physical conduct or written or graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. Complaints of racial or disability harassment will be promptly investigated and resolved.

Employees who believe they have been subjected to racial or disability harassment should discuss the problem with their immediate supervisor. If an employee’s immediate supervisor is the alleged harasser, the employee should discuss the problem with the building principal or the district compliance coordinator. Employees who do not believe the matter is appropriately resolved through this meeting may file a formal complaint under the district’s discrimination complaint procedure in policy KN.

The Executive Director of Personnel Services, 123 N. Eisenhower, Junction City, KS 66441, Telephone 785 717-4000, has been designated as the
GAACA Racial Harassment: Employees (See GAF, JGEC & KN) GAACA-3

district compliance coordinator and designated to handle inquiries regarding this policy and/or racial or disability harassment complaints. Any such incidents should be reported to the District Compliance Coordinator.

Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment. Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may also result in employee discipline.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Any employee who witnesses an act of racial or disability harassment or receives a complaint of harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action, up to and including termination.
GAACA Racial Harassment: Employees (See GAF, JGECA & KN) GAACA-4

Initiation of a complaint of racial or disability harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in an investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including termination of employment.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district’s obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall also be published in employee handbooks and on the district’s website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

SECTIONS
Any district employee who has reason to know or suspect a child has been injured as a result of physical, mental or emotional abuse or neglect or sexual abuse, shall promptly report the matter to the local Kansas Department for Children and Families (DCF) office or to the local law enforcement agency if the DCF office is not open. Employees may file a report of suspected abuse anonymously to either DCF by phoning 1-800-922-5330 or to local law enforcement officials. The Code for Care of Children also provides civil immunity from prosecution if the report is made in good faith.

The employee making the report will not contact the child's family or any other persons to determine the cause of the suspected abuse or neglect.

**DCF or Law Enforcement Access to Students on School Premises**

The building principal shall allow a student to be interviewed by DCF or law enforcement representatives on school premises to investigate suspected child abuse and shall act as appropriate to facilitate the agency's access to the child and to protect the student's interests during the process. State law grants the investigating agency the authority to determine whether a school employee may be present while the interview is being conducted, taking into account the child's best interests. If asked to sit in on the interview by the agency representative conducting it, the building principal or designee thereof shall oblige such request in order to provide comfort to the child throughout the process and to facilitate the investigation.

**Cooperation Between School and Agencies**

Principals shall work with DCF and law enforcement agencies to develop a plan of cooperation for investigating reports of suspected child abuse or neglect. To the extent that safety is not compromised, law enforcement
officers investigating complaints of suspected child abuse or neglect on school property shall not be in uniform.

**Reporting Procedure**

The employee shall promptly report to the local DCF office or law enforcement if DCF is closed. It is recommended the building administrator also be notified after the report is made.

If the building principal has been notified, the principal shall immediately notify the superintendent that the initial report to DCF has been made. If appropriate, the principal may confer with the school's social worker, guidance counselor or psychologist. At no time shall the principal or any other staff member prevent or interfere with the making of a suspected child abuse report.

If available, the following information shall be given by the person making the initial report: name, address and age of the student; name and address of the parents or guardians; nature and extent of injuries or description of neglect or abuse; and any other information that might help establish the cause of the child’s condition.

Any personal interview or physical inspection of the child by any school employee shall be conducted in an appropriate manner with an adult witness present.

State law provides that anyone making a report in good faith and without malice shall be immune from any civil liability that might otherwise be incurred or imposed.

GAAF  Emergency Safety Interventions  GAAF-4

• Using face-down (prone) physical restraint;
• Using face-up (supine) physical restraint;
• Using physical restraint that obstructs the student’s airway;
• Using physical restraint that impacts a student’s primary mode of communication;
• Using chemical restraint, except as prescribed treatments for a student’s medical or psychiatric condition by a person appropriately licensed to issue such treatments; and

  o Any device used by a certified law enforcement officer to carry out law enforcement duties; or
  o Seatbelts and other safety equipment when used to secure students during transportation.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee.
witnessing the student’s behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

**ESI Restrictions**

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student’s licensed health care provider, a copy of which has been provided to the school and placed in the student’s file.

Such written statement shall include an explanation of the student’s diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

**Use of Seclusion**

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.
All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

**Training**

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee’s position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.
Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student’s parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.
The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent’s rights; (3) information on the parent’s right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent’s written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent’s preferred method of contact. A school shall not be required to provide
written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

**Documentation of ESI Incidents**

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. The documentation shall include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at the time of the incident,
- Whether the student had a section 504 plan at the time of the incident, and
- Whether the student had a behavior intervention plan at the time of the incident.
GAAF  Emergency Safety Interventions  GAAF-10

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent’s designee on at least a biannual basis. At least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent’s request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student’s IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.
For a student with a section 504 plan, such student’s section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student’s parent, a school administrator for the school the student attends, one of the student’s teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a
GAAF Emergency Safety Interventions

Functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent’s child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.
Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department of education and shall be mailed to the parents and the state department within 30 days of the board’s receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

The district will participate in workers compensation as required by current statute. The combined workers’ compensation benefits and salary received under allowed paid leave shall not exceed one full day's pay.

All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

An injured employee must notify the designated employer’s workers compensation coordinator or, if the coordinator is unavailable, his or her supervisor within 20 days of the injury or within 20 days of repetitive trauma in order to be eligible for benefits.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and paid leave benefits shall not exceed a regular daily rate of pay. An employee using paid leave in combination with workers compensation will be charged for one full or partial day of paid leave, as provided for in the applicable leave policy or the negotiated agreement, for each day of absence until the employee’s paid leave is exhausted.

Any employee who is off work and drawing workers compensation benefits shall be required to provide the designated workers compensation
director with a written doctor’s release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under paid leave shall terminate, and those benefits under workers compensation shall be restricted as provided by current statute.

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid leave to supplement the workers compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid leave may be used for this purpose until 1) available paid leave benefits are exhausted; 2) the employee returns to work; 3) the employee is released by the medical provider and a position is offered by the employer, but the employee declines to return to work; or 4) employment is terminated. Paid leave shall be deducted on a prorata amount equal to the percentage of salary paid by the district.

The board, through its designated workers compensation coordinator, may require a post-injury chemical test as authorized by K.S.A. 44-501 et seq., and, if such test is refused, all workers compensation benefits shall be forfeited by the employee.
Choice of Physician

The board shall have the right to choose a designated health care provider to provide medical assistance to any employee who suffers an injury while performing their job.

However, if the injured employee chooses to go to a medical provider other than the designated provider, the recovery for such expenses shall be limited to $500.00.

GAR Communicable Diseases

Whenever an employee has been diagnosed by a physician as having a communicable disease as defined in current regulation, the employee shall report the diagnosis and nature of the disease to the superintendent or the superintendent’s designee so that a proper reporting may be made to the county or joint board of health as required by current law.

An employee afflicted with a communicable disease dangerous to the public health shall be suspended from duty for the duration of the contagiousness in order to give maximum health protection to other school employees and to students.

The employee shall be allowed to return to duty upon recovery from the illness, or when the employee is no longer contagious as authorized by the employee's physician.

The board reserves the right to require a written statement from the employee's physician indicating that the employee is free from all symptoms of the communicable disease.

If a school employee has been diagnosed as having a communicable disease and the superintendent has been notified by the employee, the superintendent or the superintendent’s designee shall determine whether a release shall be obtained from the employee's physician before the employee returns to duty.

Decisions regarding the type of employment setting for an employee with a communicable disease shall be made by the superintendent or the superintendent’s designee based upon consideration of the physical condition of the employee and the following factors:

- the nature of the risk;
• the duration of the risk;
• the severity of the risk; and
• the probability that the disease will be transmitted or cause harm to the employee or to others who will share the same setting.

No information regarding employees with communicable diseases shall be released by school personnel without the employee's consent except to comply with state or federal law.

**Additional Certifications of Health**

If at any time the board has reason to believe that an employee is suffering from an illness detrimental to the health of pupils, the board reserves the right to require such employee to provide the board with a new certificate of health in order to protect the health, safety, and welfare of the school’s students.

Family and medical leave as required by federal law shall be granted for a period of up to 12 weeks during a 12-month period. For purposes of this policy, a 12-month period shall be defined as a fiscal year beginning on July 1 and ending the following June 30. Spouses who are eligible for FMLA leave and are both employed by the district may be limited to a combined total of 12 weeks of leave during any 12–month period if the leave is taken for birth of the employee’s son or daughter or to care for the child after birth, for placement of a son or daughter with the employee for adoption or foster care or to care for the child after placement, or to care for the employee’s parent with a serious health condition.

Leave is available for the following:

(1) the birth of a son or daughter of the employee and to care for the newborn child;

(2) the placement of a son or daughter with the employee for adoption or foster care and to care for the newly placed child;

(3) to allow the employee to care for the employee's spouse, son, daughter, or parent with a serious health condition;

(4) a serious health condition of the employee that makes the employee unable to perform the functions of his or her job;

(5) any qualifying exigency arising out of the fact that the employee's spouse, son, daughter, or parent is a covered military member on active duty (or has been notified of an impending call or order to achieve active duty) in support of a contingency operation; and

(6) the need to care for a covered service member with a serious injury or illness if the employee is the spouse, son, daughter, parent, or next of kin of the service member. Eligible employees are, for reason (6) only,
entitled to a combined total of 26 workweeks of leave during a 12-month period.

This leave shall normally be unpaid leave. However, if the employee has any paid vacation, personal, or sick leave that is available for use because of the reason for the leave, the paid leave shall be used concurrently with the annual family and medical leave. The superintendent will notify the employee of the beginning date of family and medical leave and the amount of the employee’s accrued paid leave designated as family and medical leave.

The employee is eligible for family and medical leave if he or she has been employed by the district for at least 12 months and has worked at least 1,250 hours during the 12-month period immediately preceding the commencement of the FMLA leave.

During the period of any unpaid family and medical leave, the board shall continue to pay the employer's share of the cost of group health benefits in the same manner as paid immediately prior to the leave. Any employee portion of the cost shall be paid by the employee to the clerk of the board on the payroll date or other time as the employee and superintendent may agree prior to the commencement of the leave. The board may terminate group health coverage if the employee's portion of the payment is not received within 30 days of the due date, so long as written notice of the delinquency in payment and the notice of intent to terminate coverage are sent at least 15 days prior to the termination.

When leave is foreseeable, the employee shall give written notice 30 days in advance. If leave is not foreseeable, notice will be given as soon as is practicable.
GARI  Family and Medical Leave  GARI-3

Upon the employee providing notice of need for leave, the employer will notify the employee of the following within 5 business days, absent extenuating circumstances:

c. employer requirement of substituting paid leave;
d. requirements for premium payments for health benefits and employee responsibility for repayment if employer pays employee share;
e. right to be restored to same or equivalent jo; and

The superintendent may require an instructional employee to continue leave until the end of a semester if the leave begins more than five (5) weeks before the end of a semester, lasts more than three (3) weeks and the return would occur during the last three (3) weeks of the semester.

Leave for reason 1 or 2 must be taken within 12 months of the date of birth or placement of the child. Family leave for reasons 1 or 2 may not be used intermittently or on a part-time basis without the prior approval of the superintendent.

If the leave is for a reason other than the employee's serious health conditions or for a qualifying exigency as described in section (5) above, the superintendent may require an instructional employee to continue leave until the end of a semester, if:

1. the leave begins in the last five (5) weeks of a semester, will last more than two (2) weeks and the return to work would occur in the last two
2. the leave begins in the last three (3) weeks of a semester, and lasts more than five (5) days.

GARID  Military Leave

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Act of 1994. The Act applies to military service that began on or after December 12, 1994 or military service that began before December 12, 1994 if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of “service in the uniformed services.” The uniformed services consist of the following military branches:

Army, Navy, Marine Corps, Air Force or Coast Guard.
Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve.
Army National Guard or Air National Guard.
Commissioned corps of the Public Health Service.
Any other category of persons designated by the President in time of war or emergency.

“Service” in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:

Active duty.
Active duty for training.
Initial active duty for training.
Inactive duty training.
Full-time National Guard duty.
Absence from work for an examination to determine a person’s fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions which can exceed the five (5) years limit. Reemployment protection does not depend on the timing, frequency, duration or nature of an individual’s service. The
law enhances protections for disabled veterans including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be reemployed in the job that they would have attained had they not been absent for military service, with the same seniority, status and pay, as well as other rights and benefits determined by seniority. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded other individuals on non-military leaves of absence. Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 18 months at a cost of up to 102 percent of the full premium. For military service of less than 31 days, health care coverage is provided as if the individual had never left. All pensions which are a reward for length of service are protected.

Individuals must provide advance written or verbal notice to their employers for all military duty. Notice may be provided by the employee or by the branch of the military in which the individual will be serving.

Notice is not required if military necessity prevents the giving of notice; or, if the giving of notice is otherwise impossible or unreasonable.
Accrued vacation or annual leave may be used (but is not required) while performing military duty. The individual’s timeframe for returning to work is based upon the time spent on military duty.

</tbody>

The individual’s separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing:

- the application for reemployment is timely;
- the five-year service limitation has not been exceeded; and,
- separation from service was under honorable conditions.
If documentation is not readily available or does not exist, the individual must be reemployed. However, if after reemploying the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Questions should be directed to Veterans’ Employment and Training Service, U.S. Department of Labor.

Kansas law also requires reemployment if an individual is called to active duty by the state.

SECTIONS
GAT  Staff Use of Communication Devices  (See IIBG and IIBGC)  GAT

The board encourages district employees to use technology, including communication devices, to improve efficiency and safety. The district expects all employees to use communication devices in a responsible manner that does not interfere with the employee's job duties. Employees who violate district policies and procedures governing the use of communication devices may be disciplined, up to and including termination, and may be prohibited from possessing or using communication devices while at work. Communication devices may not be used in any manner that would violate the district's policy on student-staff relations.

Definitions

“Communication device” is defined to include all portable devices that send or receive calls or text messages, allow the retrieval of email, or provide access to the Internet. Communication devices shall include, but may not be limited to cell phones, smart phones, iPads, and tablets.

“Use/Using” for the purposes of this policy mean answering or talking on the phone; sending or responding to a text, e-mail, or other communication; opening and viewing pictures or digital recordings; opening and listening to music or audio communications; accessing social media websites; playing games on such device; continuously checking a communication device; or any activity with a communication device that interferes with the employee’s job duties or appropriate supervision of students.

General Use

The district prohibits employees from using any communication device that interrupts or disrupts the performance of duties by the employee or otherwise interferes with district operations, as determined by the employee's
supervisor. This prohibition applies regardless of whether the communication device used is owned by the employee or provided by the district. Employees are responsible for keeping communication devices secure and, if possible, password protected.

Supervision of students and the provision of academic instruction are priorities in the district, and employees who are responsible for supervising and/or providing academic instruction to students must concentrate on these tasks at all times. Employees shall not use communication devices when they are responsible for supervising students or when their doing so interrupts or interferes with classroom instruction unless any of the following conditions occurs:

- The device is being used to instruct the students being supervised at the time;
- The use is necessary to the performance of an employment-related duty;
- The employee has received specific and direct permission from a supervisor to do so; or
- There is an emergency.

Even when these conditions exist, the employee is responsible for obtaining assistance in adequately supervising students during the approved use so that students are supervised at all times.

Use in Vehicles

Regardless of other provisions of this policy, unless there is an emergency, employees shall not use communication devices when:

- Driving district-provided vehicles;
• Operating a vehicle in which a student is being transported when the transportation is provided as part of the employee's job; or
• Supervising students who are entering or exiting a vehicle, crossing thoroughfares, or are otherwise attempting to safely reach their destinations.

Even in emergency situations, employees should first take all possible safety precautions before using communication devices. Employees are subject to local, state, and federal laws governing use of cell phones while driving and will be solely responsible for all traffic violation liabilities resulting from their use of a phone while driving.

Use of District-Provided Communication Devices

The district may provide communication devices and service to some employees to assist them in carrying out their employment-related duties on and off district property. Use of a district-provided communication device is a privilege. The superintendent or designee has sole discretion as to which employees will be provided communication devices and may recall any previously issued communication device. Employees do not have any expectation of privacy in district-provided communication devices or any information stored on them, and such devices may be confiscated and searched at any time.

Employees are expected to exercise reasonable care to protect district-provided communication devices from damage or theft and must report any such incidents immediately. The district may require employees to reimburse the district for any damage or theft that was the result of the employee's negligence. Users of district-provided communication devices must abide by any use limitations included in the district's service contract.
Personal Use of District-Provided Communication Devices

Personal use of district-provided communication devices is permissible as long as the use does not exceed the limits of the applicable plan. An employee whose use exceeds plan limitations will be required to reimburse the district for all expenses beyond those covered by the plan and may have privileges suspended or revoked unless the employee can show that all use was for employment-related duties and the device was not used for personal reasons. The amount of personal use of a communication device or service paid for under E-Rate can be no greater than the cost allocation submitted in the request for the E-Rate discount.

Staff Bring Your Own Device Policy

Use of employees’ personal communication devices during work hours shall be in a responsible manner that does not interfere with the employee’s job duties. Such personal communication devices may only be used by the staff member and are not for student use. The security of personal computing devices is solely the responsibility of the staff member. Any loss resulting from damage or theft of personal communication devices in the school setting is not the responsibility of the district.

**Opt-Out Procedure and Form**

Parents or guardians (or a student over eighteen years of age) who do not want the student involved in all or some portion of the district’s Human Sexuality and AIDS education classes shall be provided a written copy of the goals and objectives for the student’s appropriate Human Sexuality and AIDS class. Following review of the curriculum goals on file at the board of education office, the parent or guardian must complete the district opt-out form and state the portion(s) of the curriculum in which the student is not to be involved.

**Opt-Out Form**

Parents or guardians (or students eighteen years of age or older) may obtain the opt-out request form from the {clerk of the board/principal}, completing and signing the form and returning the form to the {superintendent/principal}. The signed form will be kept on file in the {clerk of the board's/principal's} office.

The building principal shall receive a copy of the signed form so the named student shall be excused from all or a portion of the Human Sexuality and AIDS classes. Arrangements shall also be made for class reassignment of the student during the opt-out period.

**Annual Request Required**

Opt-out requests shall be required annually and are valid only for the school year in which they are submitted.
Notice of Availability

Public notice of the availability of the Human Sexuality and AIDS curriculum goals and objectives shall be made by means determined by the superintendent.

SECTIONS
IKD  Religion in Curricular or School Sponsored Activities  IKD

(See AEA, IF, IKDA and KN)

No religious belief or non-belief shall be promoted or disparaged by the district or its employees. Students and staff should be tolerant of each other's religious views. Students and staff members may be excused from participating in practices contrary to their religious beliefs unless there are clear educational issues of overriding concern which prevent it.

Teaching About Religion

Teachers may teach about religion, religious literature and history but are prohibited from promoting, expounding upon, criticizing or ridiculing a religion. Religious texts may be used to teach about religion, but the use of religious texts is prohibited if used to promote a particular religious doctrine.

Religion in the Curriculum and School Activities

In compliance with this policy, religious themes may be presented in the curriculum and as part of school activities. Music, art, literature and drama having a religious theme or basis are permitted as part of the curriculum or as part of a school activity if they are presented in a balanced and objective manner and are a traditional part of the cultural and religious tradition of a particular holiday or field of study. The emphasis on religious themes in the arts, literature and history should be only as extensive as necessary for a balanced and thorough study of these areas. These studies should never foster any particular religious tenets or demean any religious beliefs or non-beliefs.

Religious Symbols in the Classroom

Temporary display of religious symbols is permitted as part of the curriculum. The temporary use of religious symbols such as a cross, menorah,
IKD  Religion in Curricular or School Sponsored Activities  IKD-2

crescent, Star of David, creche, symbols of native American religions or other symbols that are a part of a religious holiday are permitted as a teaching aid if they are displayed as an example of a holiday's cultural and religious heritage.

Religious Holidays

Holidays which have a religious and a secular basis may be observed. School vacations shall have secular designations, e.g., Winter Vacation, Spring Break.

Graduation and Other Ceremonies

School ceremonies shall be secular in nature. While recognizing the significance of tradition, the board requires that graduation exercises and dedication ceremonies be secular in nature.

SECTIONS
A parent or guardian (or a student eighteen years of age or older) may request that the student be excused from participating in activities for religious reasons. The parent, guardian, or adult student must complete the district opt-out form for religious objections, stating the specific activity, the portion of the curriculum in which the activity exists, and the reasons for the request. The request may be granted, or denied, or partially granted and partially denied.

This policy shall not be interpreted to allow parents to prevent the dissemination of information which parents find religiously objectionable. Rather, this policy only extends to actual participation by their child in an activity, the performance of which is contrary to the child's religious teachings.

A parent or guardian seeking to opt-out their child from activities contrary to the child's religious teachings must complete the district's Activity Participation Opt-Out Form regarding religious objections which is available in the board office. Parents desiring to opt-out their children from activities due to religious reasons must return the completed and signed form to the principal. The form must be submitted within a reasonable amount of time prior to the scheduled activity in order to allow time for the principal to consider the request. The completed form shall be kept on file with the clerk and the superintendent shall receive a copy.

The principal shall review the request and determine whether the request should be granted or denied. The principal shall notify the parents of the decision within a reasonable amount of time after the request is submitted.
IKDA Religious Objections to Activities

If the parents are dissatisfied with the principal's decision, they may appeal in writing to the superintendent.

If the opt-out request is granted, students who opt-out of activities for religious reasons may still be required to view the activity, to learn the subject matter of the activity, or to discuss the activity. The student may be reassigned during the activity or given alternative class assignments.

Opt-out requests must be submitted annually and are valid only for the school year in which they are submitted.

SECTIONS
Animals and Plants in the School

With the prior approval of the principal, animals or plants may be brought to school for instructional purposes.

If someone is injured by an animal or comes into contact with a toxic plant, the incident shall be immediately reported to the administration by the supervising teacher. The principal shall notify the appropriate persons.

Service Animals in the Schools

Service animals may be permitted in the schools and on school property in accordance with board-approved guidelines and may be used by employees, patrons, and students. In order for the district to accommodate the health and safety of our students and staff while maintaining our educational services, programs, and activities, employees and students are encouraged to notify their building administrator prior to bringing a service animal to school for the first time. Patrons or individuals attending functions or having short term business on school property are not required to provide advance notice to school staff in order to be accompanied by a service animal on school property.

Access to school buildings will not be denied to a service animal as long as the animal is individually trained and required to do work or perform tasks for the benefit of an individual with a disability. Such work or tasks must be directly related to the individual’s disability. District staff shall not be responsible to provide care or control of a service animal, and any service animal which is out of control or is not housebroken may be excluded by district staff.

This policy does not apply to animals provided by the school for instructional purposes or for therapy or comfort dogs.

Effective: March 15, 2011
28 C.F.R. § 35.136
§ 35.136 Service animals.

(a) General. Generally, a public entity shall modify its policies, practices, or procedures to permit the use of a service animal by an individual with a disability.

(b) Exceptions. A public entity may ask an individual with a disability to remove a service animal from the premises if--

(1) The animal is out of control and the animal's handler does not take effective action to control it; or

(2) The animal is not housebroken.

(c) If an animal is properly excluded. If a public entity properly excludes a service animal under § 35.136(b), it shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on the premises.
Service Animal Federal Regulations

(d) Animal under handler's control. A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means).

(e) Care or supervision. A public entity is not responsible for the care or supervision of a service animal.

(f) Inquiries. A public entity shall not ask about the nature or extent of a person's disability, but may make two inquiries to determine whether an animal qualifies as a service animal. A public entity may ask if the animal is required because of a disability and what work or task the animal has been trained to perform. A public entity shall not require documentation, such as proof that the animal has been certified, trained, or licensed as a service animal. Generally, a public entity may not make these inquiries about a service animal when it is readily apparent that an animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability).

(g) Access to areas of a public entity. Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of a public entity's facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

(h) Surcharges. A public entity shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets. If a public entity normally charges individuals for the damage they cause, an individual with a disability may be charged for damage caused by his or her service animal.

(i) Miniature horses.

1) Reasonable modifications. A public entity shall make reasonable modifications in policies, practices, or procedures to permit the use of a miniature horse by an individual with a disability if the miniature horse has been individually trained to do work or perform tasks for the benefit of the individual with a disability.

2) Assessment factors. In determining whether reasonable modifications in policies, practices, or procedures can be made to allow a miniature horse into a specific facility, a public entity shall consider--

(i) The type, size, and weight of the miniature horse and whether the facility can accommodate these features;
(ii) Whether the handler has sufficient control of the miniature horse;
(iii) Whether the miniature horse is housebroken; and
(iv) Whether the miniature horse's presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation.

3) Other requirements. Paragraphs 35.136(c) through (h) of this section, which apply to service animals, shall also apply to miniature horses.

**SECTIONS**
JBC  Enrollment (See IIBGB, JBCA, JBCB and JQKA)

Resident Students

A "resident student" is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are "homeless" as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, "parent" means the natural parents, adoptive parents, step-parents and foster parents. For purposes of this policy, "person acting as a parent" means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Non-resident Students

Non-resident students are those who do not meet the definition of a resident student. Although the district is not required to admit non-resident students, non-resident students may be admitted to the extent that staff, facilities, equipment, and supplies are available. Other criteria regarding students seeking non-resident student admittance may be considered prior to acting on any non-resident application as specified in this policy.

Non-resident Students-Continued Enrollment

Non-resident students admitted to the district shall be evaluated each spring by district administration on the following criteria: whether the student made academic progress; regularity and punctuality of attendance; and disciplinary record, specifically whether the student complied with the student conduct code and avoided 1) major disciplinary problems and/or 2) a large number
Students may be readmitted or denied admission for the next school year based on the results of these evaluations. However, if the student has a disability, the student’s ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Parents shall be informed of any administrative decision on non-resident student applications no later than the first day of school.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

Part-time students (.5 FTE or more) may enroll with the administration’s permission if they complete all paperwork in a timely fashion and are in attendance no later than September 15th of the current school year. Part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available and the students follow the district’s student conduct policies and rules.
Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in Kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the Board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript or similar pupil records or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student’s permanent record card with a student’s legal name as it appears on the birth certificate, or as changed by a court order and the name, address, telephone number of the lawful custodian. The records shall also provide proper proof of identity.
Assignment to a School Building, Grade Level, or Classes

Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.

If required by law, students placed in foster care or students who are homeless may be educated in their “school of origin” instead of the building corresponding to the assigned attendance area. (For definition of “school of origin”, see regulations for JBCA and JBCB.)

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal’s decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In the middle school and in the high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by
the principal based on the student’s documented past educational experiences and performance on tests administered to determine grade level placement.

JBCA  Homeless Students (See EDAA and JBC)  JBCA

The district, in accordance with state and federal law and the Kansas state plan, will ensure that homeless children in the school district have access to a free and appropriate public education. Homeless students are individuals who lack a fixed, regular, and adequate nighttime residence. For the purposes of this policy, a student awaiting foster care placement shall not be considered homeless.

Coordinator

The board shall designate a homeless coordinator for the district.

Adopted by Board 07/15; Revised 03/17

SECTIONS

Note: The reader is encouraged to review regulations and forms for related information.
Homeless students shall, by definition, include the following:

1. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.

2. Children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.

3. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.

4. Migratory children who meet one of the above-described circumstances.

Enrollment/Placement (See JBC)

The district, according to the child's or youth's best interest, shall either continue the child's or youth's education in the school of origin for the duration of homelessness in any case in which: 1) a family becomes homeless between academic years or during an academic year; and 2) for the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or enroll the child or youth in any public school that nonhomeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

School Stability

In determining the best interest of the child or youth, the district homeless student liaison shall:
1) presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;

2) consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;

3) if, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and

4) in the case of an unaccompanied youth, ensure that the district homeless student liaison assists in placement or enrollment decisions under this subparagraph, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

It may not be reproduced, either in whole or in part, in any form whatsoever, to be given, sold or transmitted to any person or entity including but not limited to another school district, organization, company or corporation without written permission from KASB.
Immediate Enrollment

The school selected shall immediately enroll the homeless child or youth, even if the child or youth:

1) is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation; or

2) has missed application or enrollment deadlines during any period of homelessness.

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained so that the records involved are available, in a timely fashion, when a child or youth enters a new school or school.
Enrollment Disputes

If a dispute arises over eligibility, school selection, or enrollment in a school:

1) the child or youth shall be immediately enrolled in the school in which enrollment is sought (whether sought by the parent, guardian, or unaccompanied youth), pending final resolution of the dispute, including all available appeals;

2) the parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and

3) the parent, guardian, or unaccompanied youth shall be referred to the district homeless student liaison, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute.

Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.
**Privacy**

Information about a homeless child's or youth's living situation shall be treated as a student education record, and shall not be deemed to be directory information, under policy JRB.

**Contact Information**

Nothing shall prohibit the district from requiring a parent or guardian of a homeless child or youth to submit contact information.

**Definition**

The term “school of origin” means the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool.

When the child or youth completes the final grade level served by the school of origin, the term “school of origin” shall include the designated receiving school at the next grade level for all feeder schools.

**Comparable Services**

Each homeless child or youth shall be provided services comparable to services offered to other students in the school selected, including:

1) Transportation services;

2) Educational services for which the child or youth meets the eligibility criteria, such as services provided under title I of the Elementary and Secondary Education Act of 1965 or similar State or local programs, educational programs for children with disabilities, and educational programs for English learners;

3) Programs in career and technical education;

4) Programs for gifted and talented students; and
5) School nutrition programs.

Coordination

The district shall coordinate the provision of services under these regulations with the Department for Children and Families and other agencies or entities providing services to homeless children and youths and their families, including services and programs funded under the Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.), and transportation, transfer of school records, and other interdistrict activities, with other local educational agencies.

Housing Assistance

If applicable, the district shall coordinate with state and local housing agencies responsible for developing the comprehensive housing affordability strategy to minimize educational disruption for children and youths who become homeless.

The coordination required shall be designed to:

1) ensure that all homeless children and youths are promptly identified;
2) ensure that all homeless children and youths have access to, and are in reasonable proximity to, available education and related support services; and
3) raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness.

Homeless Children and Youths With Disabilities

For children and youths who are both homeless and eligible for services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the district shall coordinate the provision of services under these regulations with...
the provision of programs for children with disabilities served by the district and other involved local educational agencies.

**District Homeless Student Liaison**

The board designates the following individual to act as the district's homeless student liaison: (Name of Office) (Business Address) (Phone-Fax). The district shall inform school personnel, service providers, and advocates working with homeless families of the duties of this liaison.

The district homeless student liaison shall ensure:

1) homeless children and youths are identified by school personnel through outreach and coordination activities with other entities and agencies;

2) homeless children and youths are enrolled in, and have a full and equal opportunity to succeed in, district schools;

3) homeless families and homeless children and youths have access to and receive educational services for which such families, children, and youths are eligible, including services through Head Start programs (including Early Head Start programs) under the Head Start Act (42 U.S.C. 9831 et seq.), early intervention services under part C of the Individuals with Disabilities Education Act (20 U.S.C. 1431 et seq.), and other preschool programs administered by the local educational agency;

4) homeless families and homeless children and youths receive referrals to health care services, dental services, mental health and substance abuse services, housing services, and other appropriate services;
5) the parents or guardians of homeless children and youths are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children;

6) public notice of the educational rights of homeless children and youths is disseminated in locations frequented by parents or guardians of such children and youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form understandable to the parents and guardians of homeless children and youths, and unaccompanied youths;

7) enrollment disputes are mediated in accordance with these regulations;

8) the parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school that is selected;

9) school personnel providing services under these regulations receive professional development and other support; and

10) unaccompanied youths:

   a. are enrolled in school;

   b. have opportunities to meet the same challenging state academic standards as Kansas establishes for other children and youth; and

   c. are informed of their status as independent students under federal law regarding student financial assistance for higher
education acquisition and that the youths may obtain assistance from the district homeless student liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid.

The liaison shall also work with the state coordinator for education of homeless children and youth to request and receive needed technical assistance and monitoring to ensure the district complies with federal and state law regarding homeless students. Similarly, the liaison will coordinate with the state coordinator in order to provide professional development opportunities for district personnel to aid them in identifying and meeting the needs of homeless children and youths and will respond to inquiries from parents, guardians, and homeless children and youths to ensure they are provided with the full protection of the law and services they are due.

Notice

The district shall inform school personnel, service providers, advocates working with homeless families, parents and guardians of homeless children and youths, and homeless children and youths of the duties of the district homeless student liaison, and publish annually updated contact information for the liaison on the district's website.

Local and State Coordination

The district homeless student liaison, as a part of assigned duties, shall coordinate and collaborate with state coordinators, the community, and school personnel responsible for the provision of education and related services to homeless children and youths. Such coordination shall include collecting and providing to the state coordinator the reliable, valid, and comprehensive data.
JBCA  HOMELESS STUDENTS

Homeless Status

The district homeless student liaison may affirm, without further agency action by the Department of Housing and Urban Development, that a child or youth who is eligible for and participating in a program provided by the district, or the immediate family of such a child or youth, who meets the eligibility requirements, is eligible for such program or service.

Dispute Resolution Process

A complaint regarding the placement or education of a homeless child or youth shall first be presented orally and informally to the district's homeless student liaison. If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless student liaison. The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved, and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the liaison shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the liaison will inform the superintendent of the formal complaint and the disposition.

Transportation  (See EDAA, JBC and JGG)

If it is in the best interest of the homeless child or youth to attend the school of origin, transportation to and from that school will be provided at the request of the parent or guardian or, in the case of an unaccompanied youth, the homeless coordinator. If the student's temporary housing is outside the attendance area of the school of origin, then the district will work with the school of origin
to agree on a method to apportion the responsibility and costs for transporting the child. If an agreement cannot be reached, the costs will be shared equally.

SECTIONS
The district, in accordance with state and federal law and the Kansas state plan, will ensure that students placed in foster care within the school district have access to a public education in a stable educational environment. For the purposes of this policy and its applicable regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties.

Point of Contact

The board shall designate an employee to serve as a point of contact for child welfare agencies on behalf of the district.

Adopted by Board 03/17

SECTIONS
Foster Care Student Regulations
To Aid In Implementation of Federal Law

The Every Student Succeeds Act (“ESSA”) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (“KSDE”), and the Kansas Department for Children and Families (“DCF”) to ensure the educational stability of students in foster care.

For the purposes of these regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student’s best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will be absorbed. Therefore, if there are any additional costs incurred to maintain a
foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

**Additional Costs**

“Additional costs” reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

**School of Origin**

The “school of origin” is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student’s best interest to stay at that school.

**Best-Interest Determination**

DCF will make the final decision regarding whether it is in a student’s best interest to remain in the school of origin. District staff may be asked to provide information on the “educational best interest” of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the
best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student’s educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child’s preference, the parents’ preference, the child’s attachment to the school of origin, where siblings will be placed, and the availability of needed services. The “best-interest determination” may not be made based on transportation costs or funding.

District Foster Care Liaison

The “district foster care liaison” is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district’s foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

The District has designated the following staff person as the District foster care liaison:

Name: 
Position: 
E-mail: 
Address: 
Telephone: 

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (“CPS”) division of DCF will typically be the division that works with the district on issues related

to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

Adopted by Board 03/17

SECTIONS
General Transportation Procedures (OPTIONAL)

To ensure that transportation is provided promptly when it is determined to be in the best interest of a student in foster care to remain in the school of origin, the district has developed the following transportation procedures. These procedures will guide the development of an individual transportation plan for a student needing transportation to his or her school of origin.

Funding Strategies

The district and DCF have identified the following funding options that may be implemented if additional costs to transport a student in foster care to the school of origin are determined:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any cost-sharing strategies that the district has used successfully with neighboring districts in transporting students who are homeless to and from their school of origin or any other programs where transportation costs are shared.)

1. Cost sharing between the district and DCF through use of a specific transportation strategy in which each party is responsible for a segment of the transportation;
2. Offset of costs by DCF, such as using Title IV-E funds paid to a foster parent or caregiver for transportation;
3. Cost sharing between the school district of attendance and the school district where the student is living;
4. Use of the district’s Title I funds;
5. Use of Medicaid reimbursements if the IEP for a student receiving special education services will include transportation as a related service;
6. Use of any available grant funds; and

7. [Other].

**Transportation Strategies**

The following transportation strategies may be considered in achieving transportation to a student’s school of origin:

(Adjust the items below to include those agreed upon by the district and DCF. Consider any strategies that have been used successfully to transport students who are homeless to and from their school of origin and effective practices currently used to share transportation costs with neighboring districts, community partners, or others.)

1. Arranging transportation by the foster parent or caregiver to the school of origin or to a bus stop on a route to the school of origin, such as when the foster parent lives within a certain distance from the school of origin;

2. Arranging transportation by a relative or another adult approved by DCF with whom the student has a relationship and whose existing commute aligns with the student’s transportation need to the school of origin or a bus stop on a route to the school of origin;

3. Maximizing the existing district transportation system by exploring ways the student can be transported to an existing bus stop that serves the school of origin (options to transport the student to an existing bus stop could occur through use of public transportation with a bus pass or transportation voucher, or transportation by the foster parent or caregiver, a relative, or another adult with whom the student has a relationship);
4. Using existing intradistrict transportation options that allow students to be transported within the district, such as routes for students who are homeless, students attending magnet programs, or students receiving special education services (this option may require the addition of a bus stop on an existing route or that an existing route be rerouted to accommodate the transportation needs);

5. Coordinating with the district in which the student is living to provide transportation to the district boundaries or an existing bus stop within the district;

6. Evaluating whether an IEP for a student receiving special education services will include transportation to the student’s special education program at the school of origin as a related service;

7. Contracting with a private transportation company, such as a taxi service, for the student’s transportation needs;

8. Using public transportation with a bus pass or transportation voucher;

9. Adding a district transportation route; or

10. [Other].

**Individual Transportation Plan**

When DCF determines that the best interest of a student in foster care is to remain in the school of origin, the district foster care liaison will take steps to promptly collaborate with relevant DCF staff on how transportation to the school of origin will be provided, arranged, and funded.

When possible, and to allow for adequate consideration of the student’s needs, individual transportation planning will begin in advance of placement.
changes and will occur in coordination with the consultation on the student’s educational best interest.

The district foster care liaison will convene a meeting to establish an individualized transportation plan for the student. The liaison will attempt to include the student’s DCF education decision-maker and others who may be involved in education decision-making for the student, such as the student’s caseworker, foster parent or caregiver, and the court-appointed special advocate (CASA) liaison. The District foster care liaison may also involve other district staff, as appropriate. The liaison will involve the district transportation director if the individual transportation plan will involve adjustments to existing bus routes.

If necessary, the district foster care liaison will identify a short-term transportation strategy that may be used until the final transportation plan is completed so that the student can remain at the school of origin without interruption.

In evaluating transportation options to the school of origin, participants will prioritize student safety, cost effectiveness, reliability, and time and distance of the commute.

Determining Additional Costs

To identify whether additional costs will be incurred in an individual transportation plan to transport the student to the school of origin, the foster care liaison will consult with the district transportation director to calculate the cost of transporting the student to the school that the student would otherwise attend, which will be used as a comparison. In accordance with the federal Non-Regulatory Guidance, if the district is able to provide transportation through an
established bus route, there are no additional costs. If the district will reroute buses or provide transportation through a private vehicle or transportation company, the district may consider as additional costs the cost of rerouting buses or the difference between the special transportation costs and the usual transportation costs.

Administrative costs, such as additional staff time to coordinate transportation, will also be considered in determining whether there are additional costs to transport the student in foster care to the school of origin.

**Plan Elements**

The individual transportation plan may include:

1. A daily transportation strategy;
2. One or more backup transportation strategies;
3. Transportation strategies to allow participation in after-school and extracurricular activities;
4. A description of the funding strategy that will be used if additional costs to transport the student to the school of origin are identified;
5. Identification of who is responsible for each aspect of the transportation strategy;
6. Designation of an adult to accompany younger students, if necessary, such as when public transportation is used;
7. For transportation strategies with multiple segments, sign off procedures to ensure that the student safely and successfully completes each segment;
8. A communication protocol between the District and DCF when transportation for a student is no longer needed; and
9. A regular review process for adjusting transportation strategies when circumstances change.

The final individual transportation plan will require a signature by the foster care liaison and a district official who has authority to approve any additional expenditure. The DCF education decision-maker and the foster parent or caregiver, if different from the education decision-maker, will also be asked to sign the plan.

SECTIONS
When a student is absent from school, an attempt shall be made to contact the parent or guardian to determine the reason for the absence. The principal has been designated to determine the acceptability and validity of excuses presented by the parent(s) or the student.

Procedures for notifying parents on the day of a student’s absence shall be published in the student handbook.

**Excused/Unexcused Absences**

The definition of “excused absence” includes the following:

- Personal illness;
- Health-related treatment, examination, or recuperation;
- Serious illness or death of a member of the family (principal may require a doctor’s report);
- Obligatory religious observances;
- Required court appearance;
- College visits when scheduled with a counselor;
- Participation in a district-approved or school sponsored activity or course;
- Absences prearranged by parents and approved by the principal or designee; and
- Students of active duty military personnel may have additional excused absences at the discretion of the principal for visitations relative to leave or deployment.
JBD    Absences and Excuses (See AEB, IHEA, JBE and JDD)    JBD-2

All absences which do not fit into one of the above categories
would be considered an unexcused absence. A student serving a period of
suspension or expulsion from the district shall not be considered
inexcusably absent.

Significant Part of a School Day

If a student misses two or more hours of the school day, this shall be
considered a significant part of the day.

Significant Part of the school day, for the purpose of truancy, is defined
in procedures.

Make-Up Work

It is the student’s responsibility to obtain make-up assignments from
teachers following an excused or unexcused absence.

Adopted by Board 07/15; 09/15

SECTIONS
Truancy

Unleast reporting would violate the terms of any memorandum of understanding between the district and the authority to which reports would be made. The building principal shall report students who are inexcusably absent from school to the appropriate authority.

Truancy is defined as any three consecutive unexcused absences, any five unexcused absences in a semester or seven unexcused absences in a school year, whichever comes first. School year means the period from July 1 to June 30. Students who are absent without a valid excuse for a significant part of any school day shall be considered truant.

Prior to reporting to either the Department for Children and Families (if the student is under 13) or the county or district attorney (if the student is 13 or more years of age but less than 18 years of age), a letter shall be sent to the student’s parent(s) or guardian notifying them that the student’s failure to attend school without a valid excuse shall result in the student being reported truant.

Waiver of Compulsory Attendance Requirements

Students 16 or 17 years of age may be exempt from compulsory attendance regulations if the parent(s) or person acting as parent attend(s) the counseling session required by law and signs the appropriate consent and waiver form; if the student earns a GED; or if the student is exempt from compulsory attendance requirements pursuant to a court order.
JBE  Truancy (See AEB, IDCE, JBD, and JQ)  JBE-2

Involvement of Law Enforcement

Law enforcement officers may return truant children to the
school where the child is enrolled, to the child’s parent or guardian or to
another location designated by the board to address truancy issues.

Reporting to Parents

If a truant child is returned to school by a law enforcement
official, the principal shall notify the parent or guardian.

Dual Enrollment Students

Eligible students who are enrolled in a board-approved dual
enrollment program shall not be considered truant for the hours during the
school day they attend classes at a Regent’s university, community
college, technical college, vocational educational school or Washburn
University.

Adopted by Board 07/15; Revised 09/16
Building principals shall not release a student during the school day except upon a written or verbal request from the student's lawful parent or person acting as a parent.

Before releasing a student during the school day, the building principal shall be responsible for verifying the identity of the person seeking release of the student.

If the principal is not satisfied with the identification provided by the person seeking release of a student, the student's release may be refused.

Students shall not be allowed to run personal errands for school employees off school premises during the school day.

Adopted by Board 07/15

SECTIONS
Searches of Property (See JCABB)

Principals are authorized to search property if there is reasonable suspicion that district policies, rules or directives are being violated. In addition all lockers shall be subject to random searches without prior notice or reasonable suspicion. All searches by the principal shall be carried out in the presence of another adult witness.

Whenever the principal is mentioned in this policy, it shall be construed to include the superintendent “or designated representative.”

Search of Lockers

Lockers in the district schools shall be under supervision of the principal. Students shall have no expectation of privacy in any school locker.

The combinations and/or keys to all locker locks shall be in the possession of the principal and stored in a place designed to guard against unauthorized access or use. The principal may search any locker at any time without notice. Students shall not place locks, other than those approved by the school, on any locker.

Searches of Property

Any person other than the principal who wishes to search a student’s locker or property shall report to the principal before proceeding. In no event shall any person be permitted to search a student’s locker or property without the principal’s consent unless the person has a valid search warrant authorizing a search.

If a law enforcement officer desiring to search a student’s locker or property has a search warrant, the principal shall permit the search which shall be made in the presence of the principal.
Prohibited items found during the search shall remain in the custody of either the building principal or the law enforcement officer. If any items are turned over to law enforcement officials the principal shall receive a receipt for the items.

**Use of Trained Dogs in Conducting Sweeps**

At the request of the principal or on a schedule agreed upon by the service provider and the principal, law enforcement officers or licensed private agencies contracting with the school for such service, may use trained dogs on school premises to identify student property which may contain illegal or illicit materials and to determine whether materials, such as drugs, weapons, or other materials which may threaten the general health, welfare, and safety of the students and/or staff are present in the district parking lot, hallways, lockers, classrooms, and/or locker rooms. Students will never be sniffed by the dogs used to conduct the sweeps.

**JCABB Searches of Students (See JCAB and JCAC)**

Principals are authorized to search students if there is reasonable suspicion that district policies, rules or directives are being violated. Strip searches shall not be conducted by school authorities. All searches by the principal shall be carried out in the presence of another adult witness.

The student shall be told why a search is being conducted. The student shall be requested to empty items such as, but not limited to, pockets, purses, shoulder bags, book bags and briefcases. The principal shall attempt to call the student’s parent/s and may call law enforcement. Items which the principal believes may be connected with illegal activity shall remain in the custody of the principal unless the items are turned over to law enforcement officials. If the student refuses to cooperate, the principal may take disciplinary action and/or seek assistance from law enforcement.

If law enforcement assistance is present, further search of the student shall be with cooperation and assistance of law enforcement officials. The principal shall remain with the student and be present during any search of the student made by law enforcement officials on school property. The principal shall receive and file a receipt for items turned over to law enforcement officials.

If the principal believes a student is in possession of an object which can jeopardize the health, welfare or safety of the student or others, the student shall be removed to a safe location. This determination may be based on any information received by the principal or any member of the faculty or staff.
Written documentation of each search shall be maintained by the principal. (Whenever the principal is mentioned in this policy, it shall be construed so as to include the superintendent “or designated representative.”)

SECTIONS
Building administrators, school security officers, and/or others designated by the superintendent may conduct investigations and question students about violation of school rules, the student conduct code, and/or law. Unless otherwise provided herein, such investigators shall not be required to contact the student's parent, guardian, or representative prior to questioning and may request law enforcement, school resource officer(s), and/or school security officer(s) for assistance in conducting the investigations.

If there is reason to believe a violation of a criminal law has been committed, the building administrator, the superintendent's designee, and/or school security officer with authorization of the superintendent or the superintendent’s designee shall notify the appropriate law enforcement agency of criminal conduct as provided in law and/or board policy and may request further investigation of the alleged violation.

When a school resource officer or campus police officer initiates an investigation of a potential violation of criminal law by a student on the officer’s own initiative and not at the behest of a building administrator or the designee of the superintendent, such officer will notify the building administrator and/or designee who will make a reasonable attempt to contact the student’s parent, guardian, or representative prior to initiating questioning.

Coordination with Law Enforcement

School administrators and/or school security officers shall/may meet periodically with local law enforcement officials to discuss the district’s policies and rules regarding law enforcement contacts with the district.
Notification of Investigations Conducted by Law Enforcement Officers

When law enforcement officers initiate an investigation involving questioning of a student on a topic unrelated to a report of child abuse or neglect or to the identity of the student during school hours the building administrator shall make a reasonable attempt to contact a parent, guardian, or representative of the student(s) prior to such questioning. Notification or attempted notification of a parent, guardian, or representative shall be documented by the administrator involved. If a student’s parent, guardian, or representative is not present during such questioning of a student, the principal may be present unless otherwise specified in law or board policy.

Child Abuse and Identity Investigations Conducted by Law Enforcement Officers

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse or neglect or concerning the student's identity. For any investigations concerning known or suspected child abuse or neglect, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

Law Enforcement Initiated Investigations at School

In cases not involving the investigation of known or suspected child abuse or neglect or involving the student's identity, law enforcement officers shall not be permitted to initiate and conduct investigations involving the questioning of students during school hours unless the student’s parent or guardian has given the school permission to allow the questioning, a valid warrant has been presented to the building administrator for such purpose, or in
demonstrated emergency situations. If a demonstrated emergency is found, the building administrator shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the building administrator is not satisfied with either the identification or the reason, the request shall not be granted. The building administrator shall attempt to notify the superintendent and the officer’s superiors of the reasons for the refusal.

**Taking Students Into Custody**

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement, school resource officers, campus police officers, or Department for Children and Families (“DCF”) authorities pursuant to a child abuse investigation. Except as otherwise specified in this policy, a reasonable effort shall be made to notify the student’s parent, guardian, or representative when students are removed from school for any reason. Parents shall not be notified by school officials when their child is taken into custody by DCF, school resource officers, campus police officers, and/or law enforcement as a result of allegations of abuse or neglect. Except as provided above and/or as specified in a court order or arrest warrant, if a student is taken into custody by a law enforcement officer, school resource officer, or campus police officer, building administrators shall make a good-faith effort to contact the student's parent or guardian. Notification efforts shall be documented.

When a student has been taken into custody or arrested on school premises without prior notification to the building administrator, the school staff present shall ask the law enforcement officer to notify the building administrator of the circumstances as quickly as possible and shall themselves contact the
building administrator with any information they have regarding the child being taken into custody. School resource officers and campus police officers are expected to contact the building administrator as soon as practicable after taking a student into custody.

**Disturbance of School Environment**

Law enforcement officers may be requested to assist in controlling disturbances at school and, if necessary, to take students or other persons into custody.

SECTIONS
In an effort to protect the health and safety of its student activity participants from illegal and/or performance-enhancing drugs and/or alcohol use and abuse and injuries resulting from the use of drugs and alcohol, the USD 475 Board of Education adopts the following policy for drug and alcohol testing of students participating in extra-curricular and/or co-curricular activities.

Statement of Purpose and Intent

It is the desire of the Board of Education, administration, and staff that every student in the district refrains from using, possessing, or distributing illegal or performance-enhancing drugs and/or alcohol. The disciplinary actions triggered by this policy relate solely to limiting the opportunity of any student in violation of this policy to participate in extra-curricular and/or co-curricular activities. This policy is intended to supplement and complement all other policies, rules, and regulations of the district regarding possession and/or use of illegal drugs and alcohol and does not limit the district's authority to enforce the provisions of other relevant policies or take disciplinary actions authorized thereby.

Participation in school sponsored extra-curricular and co-curricular activities at the district is a privilege. Accordingly, students in such activities carry a responsibility to themselves, their fellow students, their parents, and their school to conduct themselves in accordance with a high
standard of conduct, which requires avoiding the use or possession of illegal or performance-enhancing drugs and alcohol.

The purposes of this policy are to prevent illegal or performance-enhancing drug and alcohol use; to educate student participants regarding serious physical, mental, and emotional harm caused by drug and alcohol use; to prevent injury, illness, and harm that is a potential result of drug and alcohol use; and to strive within the district for an environment free of such use and abuse.

The sanctions of this policy solely limit the opportunity of any student found to be in violation of this policy to participate in extra-curricular and co-curricular activities. There will be no academic sanction for violation of this policy except to the extent that a violation of this policy would also constitute a violation of other district policies and/or state or federal law.

The district has adopted this policy for use by all students participating in extra-curricular and/or co-curricular activities in grades 9-12. Violations under this drug testing policy are cumulative throughout this grade span, and consequences do not start over with each new school year.

Definitions

“Extra-curricular activities” means those school sponsored student activities that take place outside the regular course of study in school.
Such activities include all KSHSAA sponsored activities including, but not limited to interscholastic sports teams, forensics, debate, music, band, cheerleading, and dance team.

“Drug Use Test” means a scientifically substantiated method to test for the presence of illegal or performance-enhancing drugs, alcohol, or the metabolites thereof in a person’s urine, saliva, hair, or breath.

“Illegal Drugs” means any controlled substance which an individual may not legally sell, possess, use, distribute, or purchase under either Federal or Kansas Law. For the purposes of this policy, “illegal drugs” includes, but is not limited to, all scheduled drugs as defined by Kansas Law, all prescription drugs obtained or used without authorization, and all prescribed and over-the-counter drugs being used for an abusive purpose.

“Performance-Enhancing Drugs” includes anabolic steroids and any other natural or synthetic substance used to increase muscle mass, strength, endurance, speed, or other athletic ability. The term “Performance-Enhancing Drugs” does not include dietary or nutritional supplements such as vitamins, minerals, and proteins that can be lawfully purchased in over-the-counter transactions.

“Alcohol” means the product of distillation of any fermented liquid, whether rectified or diluted, whatever its origin, and includes synthetic methyl alcohol.
“Positive” when referring to a drug test administered under this policy means a toxicological test result which is considered to demonstrate the presence of an illegal or a performance-enhancing drug or the metabolites thereof using the standards customarily established by the testing laboratory administering the drug use test.

“Random Selection” regards the process used by the laboratory conducting drug use tests to select participants to be tested, involving the chance selection of drug test numbers assigned to each participant.

“School Days” are days that school is actually in session at USD 475.

“KSHSAA” is the Kansas State High School Activities Association of which the district is a participating member.

**Education**

The district shall provide an educational session concerning this policy to applicable students within one week of the policy’s implementation or substantial revision. The session will include a detailed explanation of the policy. In addition, it is recommended that the activities department conduct a player and parent meeting that will include information about the impact of the drug testing policy on participants. Parental attendance is strongly encouraged at each session. Each applicable student will be provided a copy of the policy and a consent form.
**JDDAA Student Activity Drug/Alcohol Testing Policy**

**Procedure**

Each student in extra-curricular activities shall receive copies of the Student Drug/Alcohol Testing Consent Form, which shall be read, signed, and dated by the student, parent, and/or guardian. Students must turn in a completed consent form to the school office before the student will be allowed to practice or participate in any extra-curricular activities. Any student who does not turn in the required form within the aforementioned timeframe will not be eligible to participate in any extra-curricular activities. Transfer students who wish to participate in extra-curricular activities will be allowed to complete the aforementioned form at the time of enrollment.

Students will be required to provide urine, saliva, or hair samples for the purpose of drug and/or alcohol testing as follows:

On a random selection basis, from a list of all students in the testing pool, high school student KSHSAA extra-curricular participants will be drawn at random to provide a urine, saliva, and/or hair sample during the school year. Names previously chosen will be placed back in the pool for the possibility of random selection at a later time.

Any drug use test required by the district under the terms of this policy will be administered by or at the direction of a professional laboratory chosen by the district, using scientifically validated
toxicological methods. The professional laboratory shall be required to have detailed written specifications to assure chain of custody of the specimens, proper laboratory control, and scientific testing.

All aspects of the drug use-testing program, including the taking of samples, will be conducted so as to safeguard the personal and privacy rights of students to the maximum extent possible. The test sample shall be obtained by the vendor in a manner designed to minimize intrusiveness of the procedure. In particular, the sample will be collected in a restroom or other private facility.

If the initial drug test is positive, the initial test result may be subject to confirmation by a second and different test of the same sample.

If a test for any student has a positive result, the laboratory will report the results to the designated employee representative. The school will then be responsible for contacting the parents of the student with the results and will solicit information regarding any medications the student may be taking which would create a positive result. If needed, the school will contact a certifying scientist at the laboratory regarding any drug interactions. If requested, a medical review officer is available to confirm the results and report the findings to the designated employee representative.

Once a positive result is determined, the student will become ineligible pursuant to Student Random Drug Testing Guidelines for USD 475 Junction City High School.
This decision may be appealed in writing to JCHS building designee within two working days. The JCHS building principal will then make a written decision within two working days. During the time of this appeal, the student will be ineligible pursuant to Student Random Drug Testing Guidelines for USD 475 Junction City High School.

The JCHS building principal’s decision may be appealed in writing through the district superintendent’s office to the USD 475 Board of Education within two working days. During the time of this appeal, the student will be ineligible pursuant to Student Random Drug Testing Guidelines for USD 475 Junction City High School.

A student that has tested positive for illegal or performance-enhancing drugs will be required to undergo five (5) additional drug use tests over the next calendar year to confirm that the student is no longer using illegal drugs or performance-enhancing drugs. The district will rely on the opinion of the laboratory that performed or analyzed the additional drug use test in determining whether a positive result in the additional drug test was produced by illegal or performance-enhancing drugs used by the student that caused the first positive result or by more recent use. All parents or guardians of students who test negative for illegal drugs of performance-enhancing drugs in the initial screening will be contacted by personnel of the district.
Disclaimer

This policy shall not supersede any state and/or federal law or KSHSAA policy on this topic. Sexual harassment shall not be tolerated in the school district. Sexual harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Sexual harassment is unlawful discrimination of the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to sexually harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment is unwelcome sexual advances, requests for sexual favors and other inappropriate oral, written or physical conduct of a sexual nature when made by a member of the school staff to a student or when made by any student to another student when: - (1) submission to such conduct is made, explicitly or implicitly, a term or condition of the individual’s education; (2)
Sexual Harassment (see GAAC, GAAD, GAF, JDDC and KN) JGEC-2

Submission to or rejection of such conduct by an individual is used as the basis for academic decisions affecting that individual; or (3) such conduct has the purpose or effect of interfering with an individual’s academic or professional performance or creating an intimidating, hostile or offensive academic environment.

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse; pressure for sexual activity; repeated remarks to a person, with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student’s grades, participation in extra-curricular activities, etc.

The district compliance coordinator is the Executive Director of Personnel Services for the district and may be contacted at 123 N. Eisenhower, Junction City, Kansas, 66441 or at, (785) 717-4000. The district compliance coordinator has been designated to coordinate compliance with this policy and/or nondiscrimination requirements contained in federal and state law, such as Title IX of the Education Amendments of 1972. Information concerning the provisions of these laws and the rights provided thereunder are available from the district compliance coordinator.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. The district will provide a prompt, adequate, reliable, and impartial investigation of sexual harassment and discrimination complaints, including the evaluation of all relevant information and documentation relating to a complaint of sexual discrimination or harassment by a school administrator, other district...

employee, or district legal counsel with appropriate Title IX training and experience. Furthermore, the district will take prompt and effective steps to prevent recurrence of any sexual harassment or discrimination and to correct its discriminatory effects on the complainant and others, if appropriate. Initial investigation of a report, complaint, or allegation of sexual harassment or discrimination will generally be handled under the timelines and procedures outlined in the informal procedures portion of board policy KN. However, formal complaint procedures may be utilized at any time upon request.

Any student who believes that he or she has been subjected to sexual harassment should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a report, complaint, or allegation of sexual harassment from a student shall inform the student of the employee’s obligation to report the complaint and any proposed resolution of the complaint to the building principal and the district compliance coordinator and shall make such report as soon as practicable. JGEC  Sexual Harassment (see GAAC, GAAD, GAF, JDDC and KN)  JGEC-4

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of sexual harassment shall report the incident to the building principal and the district compliance coordinator. Employees who fail to report complaints or incidents of sexual harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of sexual harassment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child abuse, the building coordinator or district coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district’s obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.
JGEC Sexual Harassment (see GAAC, GAAD, GAF, JDDC and KN) JGEC-5

The filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual’s status or grades. Any act of retaliation against any person who has filed a complaint or testified, assisted, or participated in any way in the compliant process and/or investigation of a sexual harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee. If it appears that retaliatory harassment has taken place, the district will take prompt and effective steps to stop the retaliatory harassment, prevent its recurrence, and remedy its effects.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy shall be posted in each district facility and shall be published in student handbooks and on the district website as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

The superintendent or the superintendent’s designee may deny access to the school buildings, facilities, and/or grounds of the district to persons who have no lawful business to pursue at the school, persons who are acting in a manner disruptive or disturbing to the normal educational functions of the school, or persons who are on school property in violation of Board and/or building policy. Administrative personnel may demand identification and evidence of qualification for access of anyone desiring to use or come upon the premises of the particular school or facility.

Persons, including parents or persons acting as parents, who have legitimate reasons for being on school property must nevertheless abide by policies adopted by the board and building policies specifically applicable to each school. Such building policies shall be published annually in the school handbook and shall be posted at the school in a conspicuous place visible to all who enter the premises. Visitors must secure and wear a visitor's pass to enter school buildings during the school day.

In such case, the police will be contacted, and arrest and criminal charges may result.

The administration will determine if the individual who has been asked to leave a district building, facility, or grounds is allowed to return in the future. If the individual is not to return in the future, the appropriate "Trespass Notification" is to be sent to the individual.

Adopted by Board 08/14
KH Gifts and Bequests (See DFK, FC, GAJ and JL) KH

All gifts and bequests given to the schools shall become the property of the district. A gift is defined as any financial donation or donation of property, personal service, structures, equipment or furnishing. Donors may be individuals, groups, organizations, or businesses. Prospective donors shall contact the facility principal and superintendent before publicly announcing a gift to a school or to the school district in order for the administration to consider the appropriateness of the gift.

To be acceptable, a gift must have a purpose consistent with that of the district, place no restrictions on the board, not be inappropriate or harmful to the best education of students, and not be in conflict with any provision of the district policy or public law.

The board authorizes the superintendent to accept gifts which do not require any expense for installation, special operations or maintenance if the value of the gift is $5000 or less. Gifts which exceed $5000, those involving installation costs to the board or those that would cause additional operating costs shall be referred to the board with a recommendation from a screening committee appointed by the superintendent. The screening committee's report will recommend acceptance or rejection with accompanying reasons for the recommendation. Gifts that require alteration of school facilities must have approval of the board.

Books, Equipment and Other Materials

Gifts of books and instructional materials will be accepted if the books and materials meet the same standards of selection as those applied to selection of instructional materials and library books and if the gift will not influence the
purchasing of similar books or materials from the donor. Donated equipment must be reviewed by the superintendent to determine acceptability in regard to safety, compatibility with existing equipment, programs and/or materials, installation and maintenance costs, and general impact upon the curriculum.

Exclusions
Under no circumstances shall gifts or bequests to the district or to a particular school be given or left with school officials without the approval of the superintendent. Once a gift has been accepted, it becomes the property of the district. Schools may dispose of gifts when their usefulness has been depleted, when they are out-of-date, or when they are in poor physical condition.

Donor Recognition
Contributors of gifts $75,000 and above will be recognized at a board meeting and the name of the donor or donors included on a plaque at the facility for which the contribution was made. Per the approval of the superintendent, additional forms of recognition for gifts and bequests may be on school/district websites, social media sites, temporary displays, school marquees, signs, banners or in school/district newsletters (print or electronic) or event programs, as appropriate.

Harassment of an individual on any of these grounds is also prohibited.

The district compliance coordinator is the Executive Director of Personnel Services for the district and may be contacted at 123 N. Eisenhower, Junction City, Kansas, 66441, (785) 717-4000. The district compliance coordinator has been designated to coordinate compliance with this policy and/or nondiscrimination requirements contained in Title VI of the Civil Rights Act of 1964, Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and The Americans with Disabilities Act of 1990. Information concerning the provisions of these Acts, and the rights provided thereunder, are available from the district compliance coordinator.

Complaints of discrimination or discriminatory harassment by an employee should be addressed to the employee’s supervisor, the building principal, or the district compliance coordinator. Complaints by a student should be addressed to the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of discrimination or harassment from a student shall inform the
student of the employee’s obligation to report the complaint and any proposed resolution of the complaint to the building principal and the district compliance coordinator and shall so report as soon as practicable.

If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. Complaints by any other person alleging discrimination should be addressed to the building principal or the district compliance coordinator. Complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures:

**Informal Procedures**

The building principal shall attempt to resolve complaints of discrimination or harassment in an informal manner at the building level. For complaints, reports, or allegations of sexual harassment or discrimination, the principal shall attempt to resolve the matter within 10 days of receiving notice thereof and shall notify the parties of outcomes or disposition of such matter within 3 days of reaching resolution. Any school employee who receives a complaint of discrimination harassment from a student, another employee or any other individual shall inform the individual of the employee’s obligation to report the complaint and any proposed resolution of the complaint to the building principal and the district compliance coordinator. The building principal shall discuss the complaint with the individual to determine if it can be resolved. Within 20 days after the complaint is resolved in this manner, the principal shall contact...
the complainant to determine if the resolution of the matter remains acceptable.

If the matter is not resolved to the satisfaction of the individual in the meeting with the principal, or if the individual does not believe the resolution remains acceptable, the individual may initiate a formal complaint.

**Formal Complaint Procedures**

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. If an individual does not wish to file a written complaint and the matter has not been adequately resolved, the building principal may initiate the complaint. Forms for filing written complaints are available in each building office and the central office.

- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.

- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator or another individual appointed by the board. In cases where sexual harassment or discrimination is alleged, the individual conducting the investigation shall have appropriate Title IX training and experience. The investigation shall be thorough. All interested persons, including the complainant and the person against whom the complaint is lodged, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

- A written determination of the complaint’s validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant no later than 30 days after the filing of the complaint.

  ◊ If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

  ◊ If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement or state law will be followed.
KN Complaints

- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.

- The complainant may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board, or by the board itself as determined by the board. The request to appeal the resolution shall be made within 20 days after the date of the written resolution of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator and the investigator’s report, and shall afford the complainant and the person against whom the complaint is filed an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed. The appeal officer will issue a written determination of the complaint’s validity and a description of its resolution within 30 days after the appeal is filed, and the outcome or disposition of the matter shall be shared with the parties within 5 days of the final resolution.

- Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

SECTIONS
Kansas Education Systems Accreditation (hereafter “KESA”) is a district-wide accreditation process. Accreditation within this process is ultimately granted by the Kansas State Board of Education. The district school board (hereafter “board”) shall maintain the goal of full accreditation for the district. Good faith efforts shall be made by all staff to implement district school improvement plans. The board shall monitor compliance.

The board is committed to implementing and sustaining the foundational structures defined within the KESA process as well as defining and implementing district-wide goals in alignment with the KESA rubrics.

In order for accreditation to be achieved, the board shall commit to school improvement for all district schools, academic achievement for all district students, and results-based professional development for all district staff members. The superintendent shall regularly report to the board on the district’s progress toward full accreditation within the 5 year cycle defined as part of the KESA process.

The board shall fully inform the public in languages commonly used in the community about district-wide goals, school improvement plans, the progress of school improvement efforts, the accreditation status of the district, and other pertinent information as the board may direct.
