What is CTE?

Junction City High School is a career academy high school. There are three career academies available to choose from: Business Information Technology (BIT), Science Engineering Technology (SET), and Fine Arts & Human Services (FAHS). Each academy provides career clusters and courses that correspond with career and technical education pathways (CTE). CTE involves a widespread range of academic and career-oriented learning experiences which incorporates a variety of different careers.

Each CTE pathway contains a sequence of courses within an academy that focuses on a related set of career courses and skills. Most academic and elective courses are grouped within an academy, while some may cover all three. Junction City High School also provides students with internship and job shadowing opportunities. CTE improves students’ college and career readiness by providing a variety of opportunities for postsecondary success in education and employment.

There are many opportunities at JCHS CTE and we want you to take advantage of those that are important to you. All of our pathways offer Articulation Agreements with post-secondary schools. If you finish enough courses to become a Pathway Completer many of our Kansas post-secondary schools will award you advanced placement credit for college courses. This saves time and money! See page 22 for details.
Employment of accountants and auditors is projected to grow 11% from 2014 to 2024, faster than the average for all occupations. In general, employment growth of accountants and auditors is expected to be closely tied to the health of the overall economy. As the economy grows, more workers should be needed to prepare and examine financial records. The median annual wage was $67,190 in May 2015.
**Business Finance Pathway**

**Junction City High School**

**Courses**
- Business Essentials
- Personal Finance
- Entrepreneurship
- Accounting I
- Investing

**Class Description**

Business Essentials is a core course designed to give students an overview of business, marketing, and finance careers. Personal Finance teaches methods of smart earning, spending, saving and investing. Entrepreneurship is an overview in starting a business and creating a business plan that covers all aspects of running a business. Investing teaches investment methods of cash, stock, bonds, and mutual funds.

**Job Outlook**

Employment of top executives is projected to grow **6%** from 2014 to 2024, about as fast as the average for all jobs. Employment growth is largely dependent on the rate of industry growth. In May 2015, the median annual wage for chief executives was **$175,110**. For general managers it was **$97,730**.

Employment of investment bankers is projected to grow **10%** from 2014 to 2024. Demand will likely create strong employment growth. The median annual wage for securities, commodities, and financial services was **$71,550** in May 2015.
Law, Public Safety and Security Pathway

Junction City High School

Courses

- Intro to LPSS
- Business Law
- Law Enforcement I and II
- Public Safety Telecommunications (911 Operator)
- Intro to Criminal Justice
- Criminal Procedures
- LPSS Internship
- EMT Program

Class Description

Intro to LPSS provides students with knowledge of occupations available in Law, Public Safety and Security fields and introduces them to the legal system, professional conduct, safety and types of crime.

Law Enforcement I and II provide the skills and knowledge to enter the Law Enforcement or Highway Patrol Academy.

Public Safety Telecommunications provides the skills and knowledge to obtain national certification in PST and become a 911 Telecommunicator.

Introduction to Criminal Justice and Criminal Procedures offer post-secondary credit. Students will learn about the administration of justice, basic court system procedures and law enforcement practices.

Job Outlook

Employment of legal assistants is projected to grow 8% from 2014 to 2024, about as fast as the average. The median annual wage was $48,810 in May 2015.

Employment of emergency medical technicians (EMTs) and paramedics is projected to grow 24% from 2014 to 2024, much faster than the average. The median annual wage was $31,980 in May 2015.

Employment of police officers is projected to grow 4% from 2014 to 2024, slower than the average. The median annual wage was $60,270 in May 2015.
Job Outlook

Employment of chefs and head cooks is projected to grow 9% from 2014 to 2024, faster than the average for all occupations. The median annual wage was $41,500 in May 2015.

Employment of food service managers is projected to grow 5% from 2014 to 2024, about as fast as the average for all occupations. They direct and are responsible for the daily operation of restaurants and other establishments that prepare and serve food and beverages. The median annual wage was $48,690 in May 2015.

Culinary Arts

Students will learn basic food preparation skills. Topics covered include safety and sanitation, foodborne illness, table etiquette, nutrition, food facts, and cooking methods. Nutrition and wellness includes the relationships of health risks, physical activity, and food choices. Baking and pastry will apply the knowledge and skills to produce baking/pastry products based on industry standards. Culinary Arts I students enrich their skills by catering school events.

Class Description

- Culinary Essentials
- Nutrition and Wellness
- Baking and Pastry
- Culinary Arts I

Courses

- Culinary Essentials: Grade 9-12, ½ Credit
- Nutrition/Wellness: Grade 10-12, ½ Credit
- Baking/Pastry: Grade 10-12, ½ Credit
- Culinary Arts I: Grade 11-12, 1 Credit
Job Outlook

Employment of software developers is projected to grow 17% from 2014 to 2024, much faster than the average. In May 2015, the median annual wage for software developers was $100,690.

Employment of computer programmers is projected to decline 8% from 2014 to 2024. Computer programming can be done from anywhere, so companies sometimes hire programmers in countries where wages are lower. The median annual wage was $79,530 in May 2015.

Class Description

Computer Apps introduce students to personal info management using Microsoft Office Suite’s Word, Excel, Access, PowerPoint, and Outlook applications. Students use these applications to create documents, spreadsheets, databases, and presentations. Also, students will manage e-mail accounts, address books, and appointments. Programming teaches the Visual Basic programming language to writing, running, and debugging programs.

Computer App I Grade 9-12
Computer App II Grade 9-12
Programming Grade 10-12

All Computer Courses are ½ Credit
Web & Digital Design Pathway

Junction City High School

Courses

- Web Page Design
- Advanced Web Page Design
- Game Design & Authoring for the Web

Class Description

Web Page Design teaches the programming languages HTML, and touches on JavaScript and CSS. Students will also learn web page design software to create web documents and manage a web site. Advanced Web Page Design teaches advanced HTML, CSS, JavaScript, Flash, and FrontPage. Students will create and design various web pages, web programs, and movies. Game design students program for the web, computer, handheld devices, and game consoles.

Web Page Design  Grade 9-12
Adv. Web Page  Grade 10-12
Game Design  Grade 11-12

All Web/Game Courses are ½ Credit

Junction City High School

Courses

- Web Page Design
- Advanced Web Page Design
- Game Design & Authoring for the Web

Class Description

Web Page Design teaches the programming languages HTML, and touches on JavaScript and CSS. Students will also learn web page design software to create web documents and manage a web site. Advanced Web Page Design teaches advanced HTML, CSS, JavaScript, Flash, and FrontPage. Students will create and design various web pages, web programs, and movies. Game design students program for the web, computer, handheld devices, and game consoles.

Web Page Design  Grade 9-12
Adv. Web Page  Grade 10-12
Game Design  Grade 11-12

All Web/Game Courses are ½ Credit

Job Outlook

Employment of web developers is projected to grow 27% from 2014 to 2024, faster than the average for all occupations. Demand will be driven by the growing popularity of mobile devices and e-commerce. The median annual wage was $64,970 in May 2015.

Employment of multimedia artists and animators is projected to grow 6% from 2014 to 2024, about as fast as the average. Projected growth will be due to increased demand for animation and visual effects in video games, movies, and television. The median annual wage was $63,970 in May 2015.
Health Science Pathway

Junction City High School

Courses

- Human Anatomy and Physiology
- Care of Athletes

Class Description

Students apply principles/concepts in anatomy, biochemistry, cytology, and histology. Care of Athletes involves work as an athletic/fitness trainer. Including treatments, bandaging, anatomy and physiology, and medical terminology. The EMT program teaches skills needed for certification and practice as an emergency medical technician (EMT) in Kansas.

Human Anatomy     Grade 11-12     1 Credit
Care of Athletes   Grade 11-12     ½ Credit

* Additional fees & transportation apply

Emergency Medicine/Sports Medicine

Job Outlook

Employment of emergency medical technicians (EMTs) and paramedics is projected to grow 24% from 2014 to 2024, much faster than the average for all occupations. The median annual wage for emergency medical technicians (EMTs) and paramedics was $31,980 in May 2015.

Employment of athletic trainers and exercise physiologists is projected to grow 21% from 2014 to 2024, much faster than the average. The median annual wage for athletic trainers was $44,670, and the median annual wage for exercise physiologists was $47,010 in May 2015.
Job Outlook

Employment of biomedical engineers is projected to grow 23% from 2014 to 2024, much faster than the average for all occupations. Demand will be strong because of more medical care and increased public awareness of biomedical advances. The median annual wage was $86,220 in May 2015.

Employment of agricultural engineers is projected to grow 4% from 2014 to 2024, slower than the average. Agricultural engineers are pursuing high-tech applications to agriculture products. The median annual wage was $75,090 in May 2015.

Junction City High School

Courses
- Biotechnology I
- Biotechnology II
- AP Biology

Class Description
Biotechnology I is the first-year course of the Junction City High School Biotechnology Program. It is designed to give students an introduction to the scientific concepts and laboratory research techniques currently used in the field of biotechnology. Biotech II teaches advanced scientific concepts and laboratory research methods currently used specifically in the pharmaceutical, agricultural, and genomics fields. AP Bio is a fast paced intro to a college biology course.

Biotechnology I Grade 11-12
Biotechnology II Grade 12
AP Biology Grade 11-12

All AP/Biotech Courses are 1 Credit
Health Science Pathway

Junction City High School

Courses
- Into to Health Sciences
- Health Sciences I
- Health Sciences II
- Health Sciences Internship

Class Description
Intro to Health Sciences explores the foundations of the U.S. health care system. Students will be introduced to key components of the Health Science Pathway. **This course is a prerequisite for Health Sciences I-III.** Health Science courses introduce students to health care safety practices and skills, and furthers their education in health care professions.

Job Outlook
Employment of registered nurses is projected to grow **16%** from 2014 to 2024, much faster than the average for all jobs. The median annual wage was **$67,490** in May 2015.

Employment of pharmacists is projected to grow **3%** from 2014 to 2024, slower than the average. The median annual wage for pharmacists was **$121,500** in May 2015.

Employment of dentists is projected to grow **18%** from 2014 to 2024, much faster than the average. The median annual wage for dental hygienists was **$158,310** in May 2015.
Job Outlook

Employment of automotive body and glass repairers is projected to grow 9% from 2014 to 2024, faster than the average for all occupations. In some cases, demand may fluctuate throughout the year. The increasing safety features in cars are likely to reduce demand for automotive body and glass repair work. In May 2015, the median annual wage for automotive body and related repairers was $39,880.

Class Description

Automotive Technology allows students to maintain their own vehicles and perform minor adjustments and repairs. The type of automotive systems covered are cooling, lubrication, electrical, fuel, brakes, tires, and suspension. Advanced courses stress electricity and electronics for diagnosis and troubleshooting, limited major repairs, and other advanced automotive systems. **Students should have access to an automobile to work on and are required to purchase a pair of safety glasses for the course.**

Job Outlook

Competition for drafting jobs is expected to be strong. New software programs are making the work more efficient, thus requiring fewer workers. Employment of mechanical drafters is projected to decline 3% from 2014 to 2024. The median annual wage for mechanical drafters was $53,520 in May 2015.

Employment of electrical and electronics drafters is projected to grow 5% from 2014 to 2024, about as fast as the average for all jobs. For electrical and electronics drafters, the median annual wage was $59,520 in May 2015.
Production Pathway

Junction City High School

Courses

• Intro to Industrial Tech
• Robotics I
• Robotics II
• Robotics III

Class Description

Intelitek’s Robotics Engineering Curriculum (REC) used in this course is a program for applied science, technology, engineering and mathematics. The REC curriculum mixes the disciplines of mechanical, electrical, and programming together with hands-on activities to create a blended learning experience. The curriculum assumes no previous robotics knowledge. In addition to the units listed below, entries to the KU LEGO Competition and to the VEX Robotics Competition will be constructed.

Robotics I  Grade 10-12
Robotics II  Grade 10-12
Robotics III  Grade 11-12

Job Outlook

Employment of robotics engineers are projected to grow 5% from 2016 to 2018. Demand for Robotics Engineers is expected to go up, with an expected 55,790 new jobs filled by 2018. The median annual wage was $80,353 in January 2017.
Employment of welders is projected to grow 4% from 2014 to 2024, slower than the average for all occupations. The construction of new power generation facilities and pipelines transporting natural gas and oil will result in new jobs. The median annual wage was $38,150 in May 2015.

Employment of welding engineers is projected to show little or no change from 2014 to 2024. Welding engineers will be needed to design new materials both in aerospace manufacturing, and on new medical or scientific products. The median annual wage was $91,310 in May 2015.

Welder I  Grade 10-12
Welder II  Grade 11-12
Welder III  Grade 11-12

All Welding Courses are ½ Credit
Junction City High School

Courses
- Technical Drafting I
- Arch. Home Maintenance
- Arch. Framing
- Arch. Cabinet-Making
- Arch. Finishing

Class Description
Arch. Home Maintenance will provide some of the basics in plumbing, electrical, HVAC, and other home repair procedures. Arch. Framing will begin construction of the project house for the school year. Activities are framing walls, installing trusses, enclosing roof and walls, roofing, and exterior window and door placement. Cabinetmaking will plan and complete cabinets and trim to be used in the house. Arch. Finishing will complete the entirety of the project house to be sold.

Job Outlook
Employment of architects is projected to grow 7% from 2014 to 2024, about as fast as the average for all occupations. Competition for jobs will be strong as the number of applicants continues to outnumber available positions. The median annual wage for architects was $76,100 in May 2015.

Employment of construction managers is projected to grow 5% from 2014 to 2024, about as fast as the average for all occupations. Construction managers will be needed as overall construction activity increases. The median annual wage was $87,400 in May 2015.
Job Outlook

Employment of broadcast and sound engineering technicians is projected to grow 7% from 2014 to 2024, about as fast as the average for all occupations. The median annual wage was $41,780 in May 2015.

Employment of film and video editors and camera operators is projected to grow 11% from 2014 to 2024, slower than the average for all occupations. In May 2015, the median annual wage was $55,740.

Junction City
High School

Courses
- Photo Imaging
- Audio/Video Production Fundamentals
- Video Production

Class Description
Photo Imaging teaches the use of equipment, software, and techniques for editing and manipulating digital images. Audio/Video Prod. Fundamentals provides experience in A/V Arts and Design, and production techniques. Students also create video projects using editing capabilities. Video Production builds on the concepts in A/V Prod. Fundamentals. Students design, produce, and air multimedia projects through social media, SharePoint, USD 475 Cable Channel 20, and other forms of media. Students also film/broadcast school events.

Photo Imaging   Grade 10-12   ½ Credit
A/V Production  Grade 10-12   ½ Credit
Video Prod.     Grade 11-12   1 Credit
Job Outlook

Employment of graphic designers is projected to show little or no change from 2014 to 2024. However, employment of graphic designers in computer systems design and related services is projected to grow 35% from 2012 to 2022. The median annual wage was $46,900 in May 2015.
AV Communication Pathway

Junction City High School

Courses
- 21st Century Journalism
- Media/Public Relations
- Digital Media Design/Production

Class Description
21st Century Journalism students develop journalistic writing and interviewing skills, and study editorial writing, basic desktop publishing principles, headline writing, and basic photojournalism and design. Media/Public Relations – Newspaper students will produce a multi-media project for public presentation. Students are responsible for all aspects of producing the school newspaper. Digital Media Design and Production – Yearbook staff have full responsibility for producing the yearbook. Scheduled after-school work is mandatory.

Job Outlook
Employment of reporters, correspondents, and broadcast news analysts is projected to decline 9% from 2014 to 2024. Declining advertising revenue will negatively impact the employment growth. In May 2015, the median annual wage for reporters and correspondents was $36,360, and for broadcast news analysts it was $65,530.

Employment of public relations specialists is projected to grow 6% from 2014 to 2024, about as fast as the average for all jobs. The median annual wage for public relations specialists was $56,770 in May 2014.
Early Childhood Development Pathway

Junction City High School

Courses

- Career & Life Plan
- Orientation Childhood education A & B
- Foundations Childhood education
- Early childhood applications

Class Description

Early childhood courses teach about the physical, mental, emotional, and social growth and development of children from birth through childhood. Main topics include the basics of working with infants, toddlers, and children; evaluating child care settings; and the practices of the child care industry. Students will be provided the opportunity to gain experience in an in-house preschool center.

Job Outlook

Employment of childcare workers is projected to grow 5% from 2014 to 2024, about as fast as the average for all occupations. The median hourly wage was $9.77 in May 2015.

Employment of preschool and childcare center directors is projected to grow 7% from 2014 to 2024, about as fast as the average. The median annual wage was $45,670 in May 2015.

Employment of social workers is projected to grow 12% from 2014 to 2024, faster than the average. The median annual wage for social workers was $45,900 in May 2015.

Career/Life Plan  Grade 9-12  ½ Credit
Child Devel. I  Grade 10-12  1 Credit
Child Devel. II  Grade 11-12  1 Credit
Found. Child Dev.  Grade 11-12  1 Credit
Child App*  Grade 12  1 Credit

* Students work with JCHS Internship Coordinator to arrange placement
Job Outlook

Employment of elementary and middle school teachers is projected to grow 6% from 2014 to 2024, about as fast as the average for all occupations. The median annual wage was $54,550 in May 2015.

Employment of high school teachers is projected to grow 6% from 2014 to 2024, about as fast as the average. The median annual wage was $57,200 in May 2015.

Employment of postsecondary teachers is projected to grow 13% from 2014 to 2024, faster than the average. The median annual wage was $72,470 in May 2015.

Class Description

Career/Life Planning focuses on personal development and the role of family, communication and teamwork, career exploration, job skills, conflict management, ethics and values, and financial planning. Teaching as a career will explore how to plan for instruction, establish a positive learning environment, and teach for different learning styles. Students are placed in a classroom for a short duration.

Career/Life Plan   Grade 9-12  ½ Credit
Orien. To ECE A.     Grade 10-12  ½ Credit
Teaching Career     Grade 11     1 Credit
Teaching Intern*    Grade 12     1 Credit
