

Dear Parent/Guardian,

The USD 475 Board of Education voted to approve boundary changes for Fort Riley schools for the 2015-2016 school year during the January 6, 2015 meeting. School boundaries were developed earlier than usual to better prepare families and staff on Fort Riley for the addition of the new Fort Riley Elementary School and the closure of Custer Hill Elementary School.

This was a complex decision that involved several factors:

- Building/Class size
- School culture and community
- Fort Riley housing area's
- Current and future housing plans on Fort Riley
- Busing
- Funding

USD 475 Administration looked at these factors and came up with several options, taking into consideration:

- Information from listening sessions with parents and staff from Custer Hill
- Consultation with Fort Riley leadership
- Input from Fort Riley principals

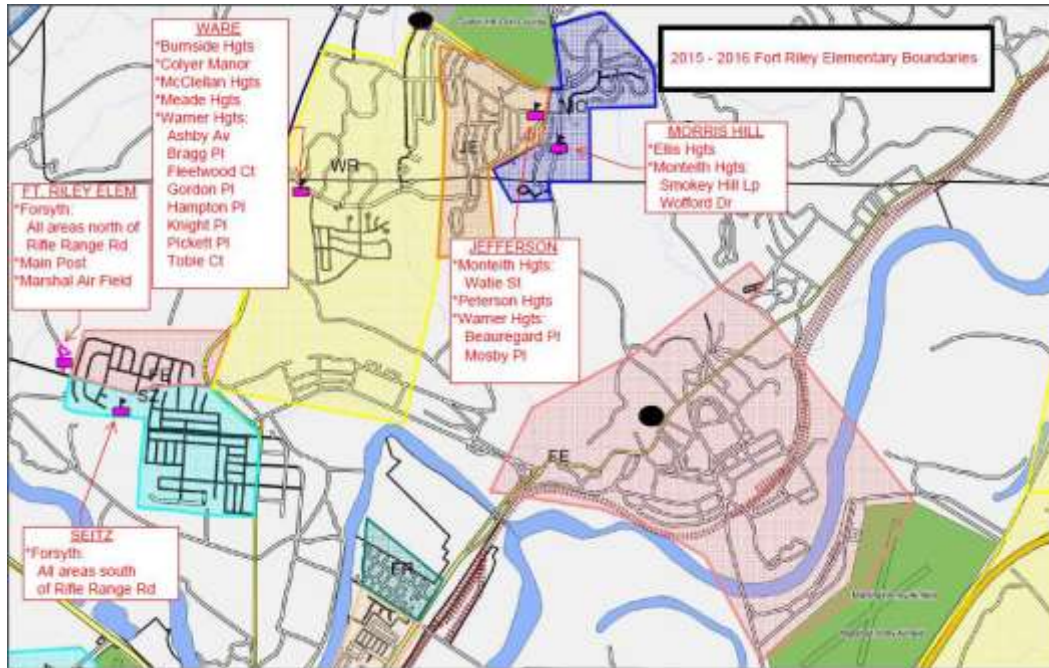

Boundaries approved allow the current students of Custer Hill to attend one school instead of being spread among different schools, keeping the connections and friendships already established. Additionally, based upon boundary adjustment, the new Fort Riley Elementary will be able to maintain their culture. Finally, the new boundaries provide flexibility for student transfers.

USD 475 has additional planning to do; this is one phase of the transition process. We are excited about the future of Fort Riley. With the addition of the new Fort Riley Elementary School this coming school year, completion of Fort Riley Middle School, the earlier addition of Seitz Elementary School, and the expansion of Ware Elementary School, USD 475 and Fort Riley are committed to educational excellence. These new changes provide new opportunities for learning that were not available just three years ago. Please help us in our attempt to work through this delicate process. Additional information will be coming over the next several months. "One Community, One Vision, Excellence!"
