Selection Criteria
In evaluating and selecting materials for the Library Media Centers, the following criteria will be considered:

2) Selection of materials involves many people: students, teachers, library media specialists, principals, and supervisors. The responsibility for coordinating the selection of instructional materials and making the recommendations for purchase rests with the professionally trained library media personnel.

3) In accordance with the criteria for selection, the school Library Media Specialists, with the approval of the school Principal and the counsel of the Coordinator of Library Media Services, will select materials for the building level Library Media Center.

4) Selection lists will be submitted to the Coordinator of Library Media Services who has purchasing authority delegated by the Superintendent of Schools, for the Board of Education.

Dear Parent(s)/Guardian(s),

As you may know, students in USD 475 will be using laptop computers in the classroom to increase and support student achievement. Students will spend time learning how to use them respectfully and properly.

Students will have the opportunity to bring home their laptops. Taking a laptop home requires the following commitments:

- The student must have this form on file to have a laptop checked out.
- The student must promise to handle the laptop as carefully as he or she has been handling it in class. Any intentional or negligent damage may result in paying for the repairs or a new device (up to $500.00).
- The student must promise to keep the laptop inside the protective case when not in use. This means that the student does not show the laptop to other students on the bus or pass it around to others that do not know how to treat the laptop correctly and responsibly (this includes brothers/sisters).
- The student will bring the laptop to school fully charged each day.
- The student must return the laptop for winter break and two weeks prior to the end of the school year.
- The student must return the laptop when moving to another school in the district or out of the district.
- The laptop is the property of USD 475 along with apps or programs on the device.
- Parents/Guardians will support students by supervising care and use of the device outside of school. Parents/Guardians will report problems to the teacher or administrator. Please do not attempt to repair the device.

I, ____________________________, agree to the terms and conditions listed above.

(Student)

Yes, my child has permission to check out the laptop computer. I will make sure he or she follows these commitments.
