I. Introduction

It is the policy of the Geary County USD #475 to provide a free and appropriate public education (FAPE) to each qualified student with a disability within its jurisdiction, regardless of the nature or severity of the disability. Consequently, it is the intent of the District to identify and evaluate qualified students with disabilities within the meaning of Section 504 of the Rehabilitation Act and Title II of the Americans with Disabilities Act who are in need of accommodations or services, including related services, to participate in District programs on an equal basis with the students without disabilities.

As detailed in these procedures, students who may be in need of accommodations or services, including related services, are evaluated by a Section 504 and Title II Team, and when appropriate and the parent or guardian provides consent, are provided accommodations or services, including related services, pursuant to a written Section 504 and Title II Accommodation Plan that outlines the accommodations or services, including related services, the student will receive.

A. Dissemination of Policy

The District will post the combined notice of non-discrimination in at least two prominent locations at each district building, the administrative office, and on each webpage of the District's website at www.usd475.org. The online notice of nondiscrimination shall contain a link to the District's anti-discrimination, anti-harassment, and anti-retaliation policies and grievance procedures, including grievance procedures to address discrimination based on disability.

The District will also publish and prominently display its revised combined notice of nondiscrimination in an easily visible location in student and employee hard copy and on-line publications, including, but not limited to, the following publications: (a) announcements, (b) bulletins, (c) catalogs, (d) students and employee application forms, (e) board policies and grievance procedures for discrimination complaints, (f) student, parent, and staff handbooks and students codes of conduct (g) recruitment materials, (h) employee handbooks or materials, and (i) general publications. For publications such as student, parent, and staff handbooks, the notice should be placed at the beginning of each handbook in a section entitled *Nondiscrimination*.

Schools must provide a copy of the combined notice of Nondiscrimination to all parents of public school students on an annual basis. In addition, schools must furnish such notice to parents whose children register during the course of the school year. This notice shall also be provided upon request.

B. Implementation of Policy

Personnel shall be designated at the central office as well as the school level to ensure compliance with Section 504 and Title II.

The District Section 504 and Title II Coordinator shall prescribe the procedures and forms used for Notice of Section 504 and Title II Rights, Section 504 and Title II Referrals, and Section 504 and Title II Evaluations, and other related forms.

Each building principal shall serve as the Building-based Section 504 and Title II Coordinator to oversee implementation of Section 504 and Title II at the building level. The Building-based Section 504 and Title II Coordinator shall ensure that the Notice of Nondiscrimination under Section 504 and Title II is disseminated to the parents of all students, shall convene Section 504 and Title II Teams to evaluate requests for their accommodations or services, including related services, shall oversee provision of any accommodations or services, including related services, and shall maintain data relevant to the school's implementation of Section 504 and Title II including which students have current Section 504 and Title II plans in place, the accommodations, or services, including related services, given, and written records of any incidents related to, or resulting from the student's Section 504 and Title II plan.

II. Overview of Section 504 and Title II

Section 504 and Title II of the Rehabilitation Act of 1973 is designed to eliminate discrimination on the basis of handicap in any program or activity receiving Federal financial assistance.

Section 504 and Title II states:

"No otherwise qualified person with a disability in the United States shall, solely on the basis of disability, be denied access to, or the benefits of, or be subjected to discrimination under any program or activity provided by any institution receiving federal assistance."

Qualified Individual with a Disability: A person with a disability means any person who (1) has a physical or mental impairment which substantially limits one or more major life activities, (2) has a record of such impairment, or (3) is regarded as having such impairment. The definition of disability shall be construed in favor of broad coverage of individuals, to the maximum extent permitted by Section 504 and Title II.

The term "physical or mental impairment" means (1) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive, genitor-urinary; hemic and lymphatic; skin; and endocrine; or (2) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. Physical or mental impairments include, but are not limited to, such contagious and non-contagious diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, specific learning disabilities, HIV disease (whether symptomatic or asymptomatic), tuberculosis, drug addiction, and alcoholism.

The term "major life activities" includes, but is not limited to, functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, working, eating, sleeping, standing, lifting, bending, reading, concentrating, thinking, and communicating. A major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive,

bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability. Also, an impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

The determination of whether impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures, such as:

- (1) medication, medical supplies, equipment, or appliances, low-vision devices (which do not include ordinary eyeglasses or contact lenses), prosthetics including limbs and devices, hearing aids and cochlear implants or other implantable hearing devices, mobility devices, or oxygen therapy equipment and supplies;
- (2) use of assistive technology;
- (3) reasonable accommodations or services, including related services, or auxiliary aids or services; or
- (4) learned behavioral or adaptive neurological modifications.

The ameliorative effects of the mitigating measures of ordinary eyeglasses or contact lenses shall be considered in determining whether an impairment substantially limits a major life activity.

In the educational context, a “qualified person with a disability” is a person with a disability who is (1) of an age during which persons without disabilities are provided such services, (2) of an age during which it is mandatory under state law to provide such services to persons with disabilities, or (3) a person for whom a state is required to provide a free appropriate public education under Individuals with Disabilities Education Act.

III. Student Identification and Referral Procedures

The District shall annually undertake to identify and locate every qualified child with a disability residing in the District's jurisdiction who is not receiving a public education and take appropriate steps to notify children with disabilities and their parents or guardians of the District's duties under Section 504 and Title II in the District's child find publications, including newspaper notices, letters, flyers, and brochures.

The District shall provide a free appropriate public education (FAPE) to each qualified student with a disability in the District's jurisdiction. An appropriate education is the provision of regular or special education and related aids and services that are designed to meet individual educational needs of students with disabilities as adequately as the needs of students without disabilities are met, and complies with applicable federal regulations.

The District shall educate, or shall provide for the education of, each qualified student with a disability in its jurisdiction with students without disabilities to the maximum extent appropriate to the needs of the students with a disability. The District shall place a student with a disability in the regular educational environment unless it is demonstrated by the District that the education of the student in the regular environment with the use of supplementary aids and services cannot be achieved satisfactorily.

The District shall ensure that students with disabilities participate with students without disabilities in nonacademic and extracurricular services and activities to the maximum extent appropriate to the needs of the student with a disability. Nonacademic and extracurricular services and activities include, but are not limited to, meals, recess periods, counseling services, physical recreational athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the District, referrals to agencies which provide assistance to students with disabilities, and employment of students.

A. Requests initiated by District Staff

Students who are in need or are believed to be in need of services under Section 504 and Title II shall be referred for evaluation. Staff can initiate a request by contacting the Building-based Section 504 and Title II Coordinator and completing a Section 504 and Title II Referral (Form B). The Building-based Section 504 and Title II Coordinator must notify the parent or guardian within five (5) school days of the referral for an evaluation under Section 504 and Title II, and request consent from the parent or guardian to conduct an evaluation, using the forms entitled Parent Notification of Section 504 and Title II Concern (Form C) and Consent for Evaluation under Section 504 and Title II (Form D) in the appendix to this Section 504 and Title II Policy Manual. When school staff initiates the request, the parent or guardian must complete the Parent Notification and Consent to Determine Eligibility for Accommodations (Form D) before an assessment can be done. Forms are available on the District website at www.usd475.org and on Infinite Campus, the District's Student Information System. If the parent does not consent to consideration of the need for an evaluation, no further action is required by the school. A record should be made that the parent or guardian declined to provide consent for the evaluation.

B. Requests Initiated by Parents

Parental requests for Section 504 and Title II accommodations or services, including related services, may be requested verbally or submitted in writing to the Building-based Section 504 and Title II Coordinator, using the Parent Notification and Consent to Determine Eligibility For Accommodations (Form D). Request forms can be obtained from the Building-based Section 504 and Title II Coordinator or from the District's website at www.usd475.org.

IV. Student Evaluation

The District shall conduct an evaluation of any student who, because of a disability, needs or is believed to need special education or related services before taking any action with respect to the initial placement of the student in regular or special education and any subsequent significant change in placement.

The District shall ensure that during the evaluation process the Section 504 and Title II Team:

- (i) draws upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior, and

- (ii) establishes procedures to ensure that information obtained from all such sources is documented and carefully considered.

The Section 504 and Title II Team shall consider all available relevant information, including but not limited to any reports, evaluations or diagnoses provided by the student's parents as well as student's grades, disciplinary referrals, health information, language surveys, parent information, standardized test scores, and teacher comments.

The definition of disability shall be construed to be in favor of broad coverage of individuals under Section 504 and Title II to the maximum extent permitted by the terms of those laws.

The District will ensure that students with disabilities who are receiving a free appropriate public education under Section 504 and Title II will be reevaluated at least annually, or more frequently if conditions warrant, including:

- (i) if there is a significant change in placement, or
- (ii) if the student's parent, guardian, or teacher requests a reevaluation.

A. Composition of Section 504 and Title II Team

A Section 504 and Title II Team shall include persons knowledgeable about the student, the meaning of the evaluation data, and the placement options.

Team membership will be determined by the needs of the individual student being evaluated and may not be composed of a single pre-determined group assembled to assess all students.

To the extent possible, on-site school personnel should participate as Section 504 and Title II Team members. Examples of appropriate personnel include, but are not limited to classroom teachers, school psychologists, and nursing staff.

The District will take steps to ensure that the parent(s) of a student with a disability, who are knowledgeable about the student, are present at the Section 504 and Title II Team meeting or are afforded the opportunity to participate, including notifying the parents of the meeting early enough to ensure that they will have an opportunity to attend and scheduling the meeting at a mutually agreeable time and place. The Section 504 and Title II Team may meet and decide issues relating to the referral, evaluation, and identification of accommodations or services, including related services, without the attendance or participation of the student's parent as long as the school has provided the parent with reasonable notice of the meeting and attempts to schedule the meeting at a mutually agreeable time and place and the parent either does not attend or declines to attend. The Section 504 and Title II Coordinator must maintain a record of the notice sent to the parent and the attempts to arrange for the parent's participation at a mutually agreeable time and place. At least two (2) such attempts should be documented before a meeting is held without the parent.

B. Section 504 and Title II Initial Team Meeting

The Building-based Section 504 and Title II Coordinator shall schedule the Section 504 and Title II Evaluation Meeting within fifteen (15) school days of receipt of an initial written request for Section 504 and Title II Accommodations or services, including related services, or a written request for a change to a student’s Section 504 and Title II plan.

Parents shall be notified in writing of the purpose, date, time, and place of the Section 504 and Title II Team Meeting. Such notice shall be given at least seven (7) school days prior to the meeting.

C. Eligibility Determination

The Section 504 and Title II Team must first decide whether the student is a qualified individual with a disability pursuant to Section 504 and Title II of the Rehabilitation Act of 1973 before determining what, if any, accommodations or services, including to provide a free appropriate public education to the student and to enable the student to attend school and participate in school activities on an equal basis with his/her non-disabled peers. Parents shall be notified in writing within thirty (30) school days after the Section 504 and Title II Initial Team meeting as to whether the student is eligible for Section 504 and Title II services.

A student is a qualified individual with a disability pursuant to Section 504 and Title II *only if* the student has a physical or mental impairment which substantially limits one or more of the major life activities of such individual.

The Section 504 and Title II Team may refer to Section II of this regulation to assess whether the student is a qualified student with a disability, in accordance with the three-step process outlined below.

- (i) Does the student have a physical or mental impairment?

A student who does not have a physical or mental impairment is not entitled to receive accommodations or services, including related services, through a Section 504 and Title II Plan. The term “physical or mental impairment” means (1) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive, genitor-urinary; hemic and lymphatic; skin; and endocrine; or (2) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. Physical or mental impairments include, but are not limited to, such contagious and non-contagious diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, specific learning disabilities, HIV disease (whether symptomatic or

asymptomatic), tuberculosis, drug addiction, and alcoholism.

- (ii) Does the student's physical or mental impairment substantially limit one or more major life activities?

The term "major life activities" includes, but is not limited to, functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, working, eating, sleeping, standing, lifting, bending, reading, concentrating, thinking, and communicating. A major life activity also includes the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability.

Also, an impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures, such as:

- a) medication, medical supplies, equipment, or appliances, low-vision devices (which do not include ordinary eyeglasses or contact lenses), prosthetics including limbs and devices, hearing aids and cochlear implants or other implantable hearing devices, mobility devices, or oxygen therapy equipment and supplies;
- b) use of assistive technology;
- c) reasonable accommodations or auxiliary aids or services; or
- d) learned behavioral or adaptive neurological modifications.

The ameliorative effects of the mitigating measures of ordinary eyeglasses or contact lenses shall be considered in determining whether an impairment substantially limits a major life activity. A student whose physical or mental impairment does not substantially limit one or more major life activities is not eligible under Section 504 and Title II.

Section 504 and Title II Teams should contact the District Section 504 and Title II Coordinator for any guidance on this federal law.

Districts procedures shall ensure that:

- (i) Tests and other evaluation materials have been validated for the specific purpose for which they are used and are administered by trained personnel in conformance with the instructions provided by their producer;
- (ii) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient; and
- (iii) Tests which are selected and administered so as best to ensure that, when a test is administered to a student with impaired sensory, manual, or speaking skills, the

test results accurately reflect the student's aptitude or achievement level or whatever other factor the tests purports to measure, rather than reflecting the student's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).

The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures such as: (1) medication, medical supplies, equipment, or appliances, low-vision devices (which do not include ordinary eyeglasses or contact lenses), prosthetics including limbs and devices, hearing aids and cochlear implants or other implantable hearing devices, mobility devices, or oxygen therapy equipment and supplies; (2) use of assistive technology; (3) reasonable accommodations or services, including related services, or auxiliary aids or services; or (4) learned behavioral or adaptive neurological modifications. The ameliorative effects of the mitigating measures of ordinary eyeglasses or contact lenses shall be considered in determining whether an impairment substantially limits a major life activity.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability.

An impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

V. Placement

For students who have been found eligible under Section 504 and Title II, the Section 504 and Title II Team will determine what educational services, related services, and supplementary aids and services, and accommodations are needed to ensure that the student receives a free and appropriate public education (FAPE).

The District shall ensure the following actions are taken when interpreting evaluation data and making placement decisions:

- (i) Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;
- (ii) Establish procedures to ensure that information obtained from all such sources is documented and carefully considered;
- (iii) Ensure that the placement decision is made by a group of persons, including persons knowledgeable about the student, the meaning of the evaluation data, and the placement of options. A parent(s) or guardian is a required participant if he or she is a person knowledgeable about the student;
- (iv) Ensure that the placement decision is made in a timely manner, and in the least restrictive environment in accordance with 34 C.F.R. Section 104.34.

If the District determines that the student is eligible for special education and related services under both the IDEA and Section 504 and Title II of the Rehabilitation Act of 1973, those services shall be delivered pursuant to an Individual Education Plan (IEP).

If the District determines that the student is eligible under Section 504 and Title II of the Rehabilitation Act of 1973, but does not meet the definition of disabled under IDEA, the District will determine, through a Section 504 and Title II meeting, whether the student requires services or modifications to his/her regular education program to allow the student's educational needs to be met as adequately as the educational needs of students without disabilities. The services or modifications recommended should be listed in writing in a Section 504 and Title II Accommodation Plan but not in an IEP.

If the Section 504 and Title II Team determines that the student has a physical or mental impairment that substantially impairs a major life activity, it must next decide what, if any, accommodations or services are necessary for the student to receive FAPE to participate on an equal basis with his/her non-disabled peers. The Team shall then draft a Section 504 and Title II Accommodation Plan for the student.

VI. Section 504 and Title II Accommodation Plan

If the Section 504 and Title II Team determine that accommodations or services are required, they shall draft a Section 504 and Title II Accommodation Plan (Form I) for the student. The Plan shall specify the names and titles of the Section 504 and Title II Team participants, the materials considered in reaching the decisions, and the accommodations or services, including related services, that will be offered to the student.

A. Training

Any and all District staff and administrators who educate, serve, supervise, or transport students with life-threatening or serious allergies or disabilities, including, but not limited to, teachers substitute teachers, aides, paraprofessionals, educational support staff, bus drivers, substitute bus drivers, and building administrators, shall be properly trained by qualified medical personnel for the provision of emergency medical services to the students, if necessary.

Any necessary training shall occur in advance of educating, serving, supervising, or transporting said students. Training of staff shall be documented to include names and titles of those trained. Such documentation shall be kept in the student's cumulative file along with their Section 504 and Title II Accommodation Plan.

The District shall ensure that properly trained District staff are provided during field trips and other school activities to provide emergency medical services, if necessary.

B. Notification and Consent

Once a determination has been made, the Building-based Section 504 and Title II Coordinator shall notify the parent in writing of the decision of the Section 504 and Title II Team regarding the student's eligibility for Section 504 and Title II accommodation.

The notice shall include a description of the parent's right to challenge any decision made by the Section 504 and Title II Team, in accordance with Section VIII (Procedural Safeguards) of this regulation. A copy of the written notice is also available on the District's website.

No Accommodation Plan may be implemented without written parental consent. The Building-based Section 504 and Title II Coordinator shall provide two copies of the Section 504 and Title II Accommodation Plan to the parent for his/her approval and signature.

The parent shall return one copy of the plan with his/her signature to the Building-based Section 504 and Title II Coordinator and shall retain the other copy for his/her records. Parental consent shall be valid for the duration of the current plan unless the parent informs the Building-based Section 504 and Title II Coordinator that she/he no longer consents to the provision of the agreed-upon accommodations or services, including related services.

C. Transfers between schools within the District during the School Year

If a student transfers between schools within the District during the school year, the sending school shall include the Section 504 and Title II Accommodation Plan when the sending school forwards the records to the receiving school. The receiving school should immediately implement the Section 504 and Title II Plan in effect for the current academic year.

D. Annual Review

Section 504 and Title II Plans will be reviewed on an annual basis. The initial date of the plan will be recorded and the Building-based Section 504 and Title II Coordinator shall monitor the initial plan dates to ensure all plans are reviewed at least annually. Plans will be reviewed more frequently if the Section 504 and Title II Team believe a change in circumstances warrant it. Parent/guardians may also request a more frequent review. If the parent or guardian indicates that changes need to be made to the Section 504 and Title II Plan, or personnel responsible for implementing the Section 504 and Title II Plan indicate that there is a problem with implementation, or request that the Plan be modified, a full team must convene to modify the Section 504 and Title II Plan.

A full team shall convene to review a student's Section 504 and Title II Plan when a student transfers to a new school.

E. Transfers from another School District or Private or Charter School

Students who transfer during the school year from another school district or a private or charter school and who present Section 504 and Title II Plans prepared elsewhere or request Section 504 and Title II accommodations or services, shall be evaluated by the Section 504 and Title II Team within 30 days of the student's enrollment in accordance with the process and procedures set forth in this regulation. If the student has a Section 504 and Title II Plan from another school district or a private or charter school, that plan

will be implemented to the extent possible until the student is evaluated in accordance by a District Section 504 and Title II Team in accordance with this regulation.

F. Required Referral to Special Education

Some students referred for Section 504 and Title II accommodations or services, including related services, may be eligible for services under the Individuals with Disabilities Act (IDEA). In this situation, the Section 504 and Title II Team shall refer the student to the Director of Special Education for evaluation. A student may be in need of Special Education services if she/he has a disability as defined in the Individual with Disabilities Education Act (IDEA) that impacts his/her ability to learn.

If a student already has an IEP under the Individuals with Disabilities Education Act and is believed to need accommodations or services, including related services under Section 504 and Title II, the matter should be referred to the Special Education Department to reconvene an IEP Team and consider the request.

VII. Record Keeping

A copy of each student's Section 504 and Title II Plan for each academic year must be maintained in the student's cumulative file, so that it can be transferred with the student if the student changes schools.

Schools shall ensure that every written request for Section 504 and Title II accommodations or services is recorded in the student's cumulative record. This includes all written requests, not just those that ultimately are determined to require accommodations or services. The data recorded shall include, at a minimum the date of the request, nature of the request, and whether the student was determined to be a qualified individual with a disability by the Section 504 and Title II Team.

A copy of all Section 504 and Title II requests and plans shall be sent to the District's Section 504 and Title II Coordinator at the Devin Education Center for Support, 123 N. Eisenhower, Junction City, KS 66441. The district will maintain the student's complete Section 504 and Title II documentation, subject to the District's record retention policy, including but not limited to parent requests, signed consent forms, Section 504 and Title II plans, eligibility reports, and any supporting documentation such as assessments, medical documentation, observations, etc.

VIII. Procedural Safeguards

A. Notice

The District will notify parents or guardians of any evaluation or placement actions and will provide parents or guardians with a copy of the District's Notice of Procedural Safeguards (Form E): (1) annually at the student's Section 504 and Title II meeting; (2) upon enrollment in a school; (3) upon request; and (4) when the District takes any action with respect to the identification, evaluation, or educational placement of the student.

Written notification of the decision of the Section 504 and Title II Team shall be provided to the parent within ten (10) school days of the accommodation meeting.

B. Opportunity to Examine Relevant Records

Parents have the right to examine the records of their child relating to the referral, evaluation, development, and implementation of Section 504 and Title II Plans.

C. Complaints

Parents may challenge the District's actions pertaining to a student with a disability by doing the following:

- i. **Impartial Hearing:** Parents or guardians have the right to file a request with the District for an impartial hearing by an objective, neutral hearing officer to challenge any District action with respect to the identification, evaluation, or educational placement of the student. Parents may request an impartial hearing by making a written request to Section 504 and Title II Coordinator. The hearing officer will not be an employee or an independent contractor of the District. Parents or guardians will be provided an opportunity to participate in the impartial hearing and to be represented by counsel. In addition, parents or guardians will have a record of the hearing and will be provided with a written decision, including findings of fact and conclusions of law. If a parent or guardian is dissatisfied with the hearing officer's decision, he or she may appeal the decision to a court of appropriate jurisdiction.
- ii. **Internal Complaint:** Parents or guardians may file an internal complaint with the District's Section 504 and Title II Coordinator, using the District's grievance procedures for complaints of discrimination (see Policy KN at www.usd475.org). The contact information for the District's Section 504 and Title II Coordinator is: Director of Business Operations at 123 N. Eisenhower, Junction City, KS 66441, Telephone: 785 717-4000.
- iii. **OCR Complaint:** Parents, guardians, or others may file a complaint with the Office for Civil Rights (OCR) in the U.S. Department of Education to address complaints based on disability discrimination. The contact information for OCR is:

Kansas City Office
Office for Civil Rights U.S. Department of Education
8930 Ward Parkway, Suite 2037
Kansas City, MO 64114-3302
Telephone: 816-268-0550
Fax: 816-823-1404; TDD: 877-521-2172
Email: OCR.KansasCity@ed.gov

IX. Inquiries

Inquiries regarding Section 504 and Title II compliance should be directed to the District's Section 504 and Title II Coordinator at: Director of Business Operations at 123 N. Eisenhower, Junction City, KS 66441 Telephone: 785 717-4000.
